

## RHSA-2025:19332 - Security Advisory

Issued: 2025-10-30    Updated: 2025-10-30

[Overview](#)[Updated Images](#)

### Synopsis

Important: multicluster engine for Kubernetes 2.9.1 security update

### Type/Severity

Security Advisory: Important

### Topic

The multicluster engine for Kubernetes 2.9 General Availability release images, which add new features and enhancements, bug fixes, and updated container images.

### Description

The multicluster engine for Kubernetes v2.9 images

The multicluster engine for Kubernetes provides the foundational components that are necessary for the centralized management of multiple Kubernetes-based clusters across data centers, public clouds, and private clouds.

You can use the engine to create new Red Hat OpenShift Container Platform clusters or to bring existing Kubernetes-based clusters under management by importing them. After the clusters are managed, you can use the APIs that are provided by the engine to distribute configuration based on placement policy.

## Solution

For multicluster engine for Kubernetes, see the following documentation for details on how to install the images:

[https://access.redhat.com/documentation/en-us/red\\_hat\\_advanced\\_cluster\\_management\\_for\\_kubernetes/2.14/html/clusters/cluster\\_mce\\_overview#mce-install-intro](https://access.redhat.com/documentation/en-us/red_hat_advanced_cluster_management_for_kubernetes/2.14/html/clusters/cluster_mce_overview#mce-install-intro) 

## Fixes

- [ACM-24964](#)  - {}

## CVEs
