## WHY AIMEOS?

Build full-featured, ultra fast online shops, [marketplaces](#) or [B2B applications](#) with the cloud-native and API-first ecommerce platform for Laravel and TYPO3 that scales from 1 to 1,000,000,000+ items. It's loved by thousands of developers and already installed 400,000+ times.

The Aimeos ecommerce package is Open Source, available for free and the most widely used ecommerce platform for Laravel and TYPO3. Developed by a worldwide community since 2015, Aimeos is available in more than 30 languages and includes an impressive list of features.

## HIGHLIGHTS

Flexibility, customizability, performance and scalability are Aimeos top priorities. Together with Laravel, Symfony or TYPO3, solutions are possible that go beyond what most other store systems can offer:

- ✓ World class JSON REST and GraphQL API
- ✓ Perfect fit for AWS, Google, Azure or any Kubernetes-based clouds
- ✓ Multi vendor, channel and warehouse for market places and B2B
- ✓ For shops from one to 1 billion items that render in 20ms
- ✓ Build multi-tenant SaaS with custom domains out of the box
- ✓ Incl. bundle, voucher, virtual, config, custom and event products
- ✓ Turn every product into a subscription with recurring payment
- ✓ Supports 100+ payment gateways via Omnipay PHP library

## GOOGLE LIGHTHOUSE RESULTS

Aimeos is regularly tested with Google Lighthouse because we want our clients to be more than satisfied . We achieve full marks in all four disciplines (performance, accessibility, best practices and SEO). Try it out, analyze your store and convince yourself of the speed and quality of Aimeos.
