Why People Love Blurams

Mahesh Patel

Brittney Norman

Nishant Kathuria

I now can go in an area of my yard after dark and just by my motion the light turns on and lights up my whole side yard perfectly! Not only am I pleased with that. The in color, night vision option is great quality and something I would love in each of my outdoor security cameras.

I was living in an area where people were getting beat up regularly. This is my 2nd security camera and I love the picture quality, it rotates almost 360 degrees, can do motion sensing and human detection, I mounted this one beside the window so I can see what is in front of my house.

The blurams cam was recommended by many you tubers and is hands down one of the best cameras I have purchased. We have it installed upside down and use it as a baby monitor. Installation was easy and fast, and the picture quality is great during the day and night time.

Blurams App

Open Blurams camera App allows you to see playback videos, chat with your family, and share your favorite moments. Keep in touch with your loved ones wherever you are.
