

BLUVOYIX

Bringing it all together

A digital technology solution built for the future of logistics

THE CHALLENGE

Data digitization is one of the biggest remaining hurdles in our modern logistics world

BLUVOYIX is designed for shippers, by shippers to simplify global supply chains

Multiple sources of "truth"

Complex & costly integrations

Technology that doesn't fit

WHAT IS BLUVOYIX

Our integration-friendly BLUVOYIX platform provides the single source of truth you're

looking for

A digital suite of transportation SaaS solutions, BLUVOYIX is supported by our **Operations Management** services to create a neutral environment where cargo owners and transportation suppliers can meet to have seamless, transparent, and cost-effective interactions.

Create price, service and data transparency

Leverage data science to improve supply chain performance

Improve supplier relationships and service levels

HOW WE DO IT

A cloud-based solution that helps shippers manage their supply chain data in a

frictionless, neutral environment supported by a best-in-class tech stack

Rate management —

Provider rate agreements are cumbersome. We take the pain out of carrier contract management with our BLUVOYIX platform which uses advanced machine learning and optical character recognition to digitize your rate agreements. This ensures your hard work in procurement makes it to the bill of lading.

Booking management +

Advanced shipment visibility +

Rate audit & payment +

Shipper analytics +

WHY CHOOSE BLUVOYIX

A highly-effective and customizable solution that enables digital procurement transformation through end-to-end supply chain visibility
