

Red Hat Product Errata RHSA-2025:2545 - Security Advisory

RHSA-2025:2545 - Security Advisory

Issued: 2025-03-10 Updated: 2025-03-10

Overview

Synopsis

Moderate: Red Hat build of Keycloak 26.0.10 Update

Type/Severity

Security Advisory: Moderate

Topic

New Red Hat build of Keycloak 26.0.10 packages are available from the Customer Portal

Description

Red Hat build of Keycloak 26.0.10 is a standalone server, based on the Keycloak project, that provides authentication and standards-based single sign-on capabilities for web and mobile applications.

Security fixes:

- Authentication Bypass Due to Missing LDAP Bind After Password Reset in Keycloak (CVE-2025-0604)
- Improper Authorization in Keycloak Organization Mapper Allows Unauthorized Organization Claims (CVE-2025-1391)

Solution

Before applying the update, back up your existing installation, including all applications, configuration files, databases and database settings, and so on.

Affected Products

- Red Hat build of Keycloak Text-only Advisories x86_64
