

Red Hat Product Errata    RHSA-2025:8233 - Security Advisory

# RHSA-2025:8233 - Security Advisory

Issued: 2025-05-27    Updated: 2025-11-21

[Overview](#)[Updated Images](#)

## Synopsis

Red Hat OpenShift Pipelines Release 1.18.1

## Type/Severity

Security Advisory: Important

## Topic

The 1.18.1 GA release of Red Hat OpenShift Pipelines Operator.. For more details see [product documentation]([https://docs.redhat.com/en/documentation/red\\_hat\\_openshift\\_pipelines](https://docs.redhat.com/en/documentation/red_hat_openshift_pipelines)). [↗](#)

## Description

The 1.18.1 release of Red Hat OpenShift Pipelines Operator.

## Solution

Red Hat OpenShift Pipelines is a cloud-native, continuous integration and continuous delivery (CI/CD) solution based on Kubernetes resources. It uses Tekton building blocks to automate deployments across multiple platforms by abstracting away the underlying implementation details. Tekton introduces a number of standard custom resource definitions (CRDs) for defining CI/CD pipelines that are portable across Kubernetes distributions.

## Fixes

- [SRVKP-7427](#) [↗](#) - [1.18] TektonConfig does not propagate Results options

- [SRVKP-7148](#) - Cancel-in-progress feature is not properly applied on gitlab pull requests
- [SRVKP-7309](#) - Ecosystem task git-clone references wrong image
- [SRVKP-7456](#) - Running PipelineRun incorrectly cancelled on PR merge without cancel-in-progress annotation
- [SRVKP-7457](#) - Ecosystem: tkn version prints product version instead of client version
- [SRVKP-7522](#) - PAC Controller restarts frequently due to "index out of range" error
- [SRVKP-7610](#) - Pipelines operator reconciling all label values from namespace
- [SRVKP-7451](#) - Ensure proper Git URL formatting for gitlab
- [SRVKP-7613](#) - Unable to start pipeline from UI because of param type error

## CVEs

- [CVE-2024-21536](#)
- [CVE-2024-48949](#)
- [CVE-2024-11831](#)
