

## RHSA-2026:12337 - Security Advisory

Issued: 2026-04-30   Updated: 2026-04-30

[Overview](#)[Updated Images](#)

### Synopsis

Assisted Installer RHEL 9 components for Multicluster Engine for Kubernetes 2.11.1

### Type/Severity

Security Advisory: Important

### Topic

Assisted installer RHEL 9 components for the multicluster engine for Kubernetes 2.11.1 General Availability release, with updates to container images.

### Description

Assisted Installer RHEL 9 integrates components for the general multicluster engine for Kubernetes 2.11.1 release that simplify the process of deploying OpenShift Container Platform clusters.

The multicluster engine for Kubernetes provides the foundational components that are necessary for the centralized management of multiple Kubernetes-based clusters across data centers, public clouds, and private clouds.

You can use the engine to create new Red Hat OpenShift Container Platform clusters, or to import existing Kubernetes-based clusters for management.

After the clusters are managed, you can use the APIs that are provided by the engine to distribute configuration based on placement policy.

### Solution

For more information about Assisted Installer, see the following documentation:

[https://docs.redhat.com/en/documentation/red\\_hat\\_advanced\\_cluster\\_management\\_for\\_kubernetes/2.16/html/clusters/cluster\\_mce\\_overview#cim-intro](https://docs.redhat.com/en/documentation/red_hat_advanced_cluster_management_for_kubernetes/2.16/html/clusters/cluster_mce_overview#cim-intro)

For multicluster engine for Kubernetes, see the following documentation for details on how to install the images:

[https://docs.redhat.com/en/documentation/red\\_hat\\_advanced\\_cluster\\_management\\_for\\_kubernetes/2.16/html/clusters/cluster\\_mce\\_overview#mce-install-intro](https://docs.redhat.com/en/documentation/red_hat_advanced_cluster_management_for_kubernetes/2.16/html/clusters/cluster_mce_overview#mce-install-intro)

This documentation will be available after the general availability release of Red Hat Advanced Cluster Management 2.16.

### Fixes

(none)

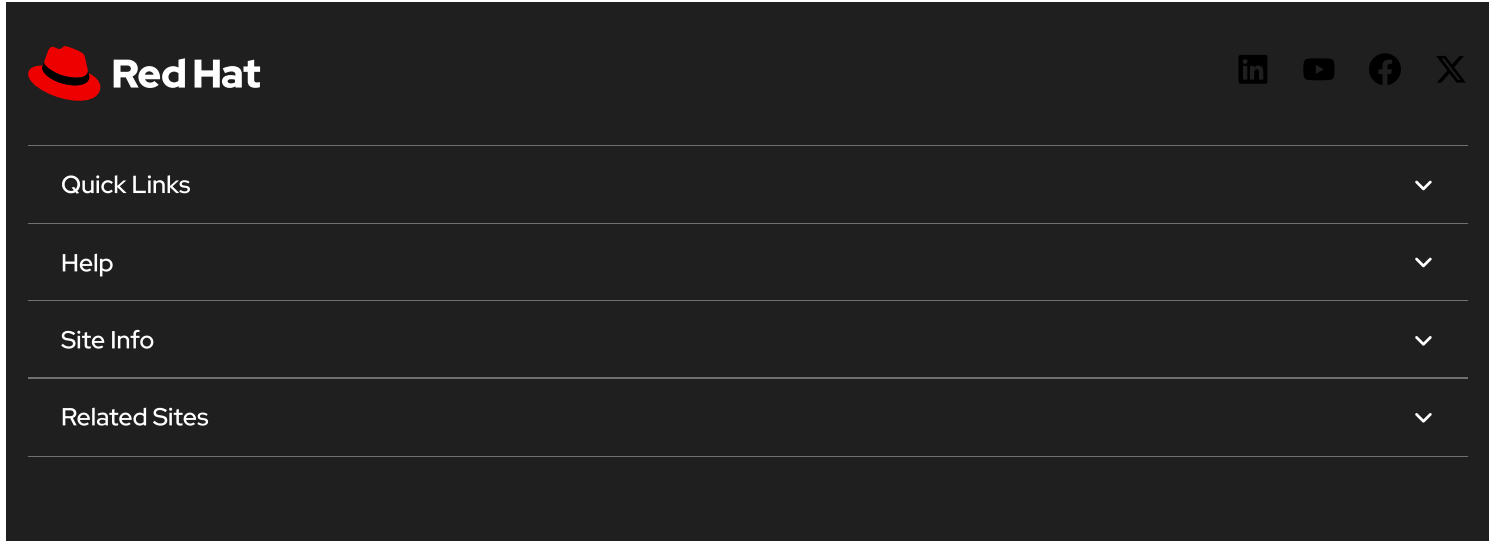

## CVEs

- [CVE-2026-33186](#)
- [CVE-2026-7163](#)

The Red Hat security contact is [secalert@redhat.com](mailto:secalert@redhat.com). More contact details at <https://access.redhat.com/security/team/contact/>.

The image shows the Red Hat logo and a navigation menu. The logo consists of a red hat icon and the text "Red Hat". To the right of the logo are social media icons for LinkedIn, YouTube, Facebook, and X. Below the logo is a navigation menu with four items: "Quick Links", "Help", "Site Info", and "Related Sites", each with a downward-pointing chevron icon.

✓ All systems operational

The image shows the Red Hat footer menu. It starts with a small hat icon, followed by a list of links: "About Red Hat", "Jobs", "Events", "Locations", "Contact Red Hat", "Red Hat Blog", "Inclusion at Red Hat", "Cool Stuff Store", and "Red Hat Summit". Below this list is a horizontal line, followed by a list of legal and policy links: "© 2026 Red Hat", "Privacy statement", "Terms of use", "All policies and guidelines", "Digital accessibility", and "Cookie Preferences and Do Not Sell or Share My Personal Information".
