Asseco Group

Asseco Group is a federation of companies engaged in information technology and operates in 65 countries worldwide. Asseco Group companies are listed on the Warsaw Stock Exchange, Tel-Aviv Stock Exchange as well as on the American NASDAQ Global Markets. Asseco Group offers comprehensive, proprietary IT solutions for all sectors of the economy. Own solutions account for ca. 80% of Asseco Group total sales revenues. This puts Asseco Group on the 6th place among the top software vendors in Europe.

Asseco Group specializes in the production and development of software. We develop and implement centralized and comprehensive IT systems for the banking sector. Our portfolio also

Asseco Group is also successful in providing its products and services to the utilities sector, telecommunication, healthcare, local administration, agriculture, uniformed services as well as for international organizations and institutions such as NATO or the EU.

To explore synergies gained from mergers and acquisitions Asseco Group has established Business Units. One of the main goals is the integration and coordination of Asseco Group operations within particular sectors/areas and the coordination of regional product strategy. The other one is to maximize benefits from existing products, knowledge and competences. Business Units also

includes advanced solutions for insurance institutions that have been implemented in the sector's major companies as well as IT systems dedicated to public administration.

give the opportunity to share experiences coming from Asseco companies.

Business Units

Asseco Group has comprehensive offer in main business units

In each Business Unit Asseco Group has wide experience in providing own software and services, long list of implementations and broad portfolio of clients.

Banking

Making the software for banks has been one of the primary specializations of Asseco since its very early times.

Healthcare

Asseco Group is continuing to build on its extensive experience and rich history a leading position in delivering IT solutions for healthcare institutions.

Insurance

As the Asseco Group we are honored to have very long-term and successful cooperation with all types of players in the insurance sector across the world.

ERP Solutions

Public Institutions

Telecommunication

The Asseco Group offers a full range of own-made modern ERP software [Enterprise Resource Planning] for small, medium and large enterprises.

Utilities

The long-term presence on the power and gas market gave Asseco an opportunity of getting to know each of indicated sectors practically from the ground up.

We specialize in the creation and delivery of solutions that cannot be done by standard means and tools, without a great deal of creative work.

Asseco operates in the telecommunications sector for over 20 years. Our solutions are reliable and can be easily customized to all kind of telco clients.

IT Infrastructure

Asseco Group provides end-to-end infrastructure services including computing and communication solutions.

FMCG solutions

We offer innovative solutions for consumer goods enterprises employing mobile sales force. Mobile Touch has been used in more than 40 countries.

Our mission

Our mission is to build the trustworthy and profitable global IT company providing our customers with high quality software and services.
