

## CVE-2026-7791 - Local Privilege Escalation via TOCTOU Race Condition in Amazon WorkSpaces Skylight Agent

**Bulletin ID:** 2026-025-AWS

**Scope:** AWS

**Content Type:** Important (requires attention)

**Publication Date:** 05/04/2026 15:15 PM PDT

### Description:

Amazon Skylight Workspace Config Service (slwsconfigservice) is a critical background service within [Amazon WorkSpaces](#) that manages system configuration, monitors health, and updates components. We identified [CVE-2026-7791](#) which allows a local non-admin authenticated user to escalate privileges to SYSTEM by exploiting a race condition in the Skylight Workspace Config Service's log file archival process.

**Impacted versions:** < 2.6.2034.0 of the Windows Amazon Skylight Workspace Config Service (slwsconfigservice)

### Resolution:

This issue has been addressed in 2.6.2034.0 version. We recommend upgrading to the latest version.
