jQuery UI 1.13.0 released

Posted on October 7, 2021 (https://blog.jqueryui.com/2021/10/jquery-ui-1-13-0-released/) by Michał Gołębiowski-Owczarek (https://blog.jqueryui.com/author/mgol/)

After a long break, it is our pleasure to announce the 1.13.0 release. The main focus of this release was improving compatibility with recent jQuery versions so we postponed most breaking changes like removal of deprecated APIs and removal of legacy browser support to a possible future release.

Usage of deprecated jQuery APIs have been removed. jQuery UI 1.13 triggers no jQuery Migrate warnings when running its test suite against jQuery 3.6.0 with jQuery Migrate 3.3.2, i.e. the latest versions at the moment of this release.

A few security issues have been fixed:

- XSS in the `altField` option of the Datepicker widget (https://github.com/jquery/jquery-ui/security/advisories/GHSA-9gj3-hwp5-pmwc)

- jQuery maintainers continue

- XSS in `*Text` options of the Datepicker widget (https://github.com/jquery/jquery-ui/security/advisories/GHSA-j7qv-pgf6-hvh4)
- XSS in the `of` option of the `.position()` util (https://github.com/jquery/jquery-ui/security/advisories/GHSA-gpqq-952q-5327)

Support for jQuery 1.7 has been dropped; jQuery 1.8 & newer remain supported.

In this release, all individual module files as well as bundled jQuery UI copies produced by the Download Builder have all its code running in strict mode. This shouldn't matter for most users as jQuery has been running in strict mode since 3.0 released in 2016.

Apart from that, two small features were added:

1. **Accordion**'s *header* option may now accept not only a selector matching header elements but also a function taking the accordion element as a parameter and returning the header elements; more details in the docs for the *header* option (https://api.jqueryui.com/accordion/#option-header).
2. **Datepicker** options now include the optional *onUpdateDatepicker* callback (https://api.jqueryui.com/datepicker/#option-onUpdateDatepicker), called when the datepicker widget's DOM is updated.

To simplify the maintenance of jQuery UI, we're sunsetting the old bug tracker at https://bugs.jqueryui.com (https://bugs.jqueryui.com) (we'll keep it in read-only mode) in favor of GitHub issues.

jQuery UI has struggled with finding contributors for the past few years; our goal is to move it more to a maintenance state: we'll make sure the library is compatible with new jQuery releases and that security issues are fixed but no new significant feature work is planned. We'll also try to fix important regressions from jQuery UI 1.12.1; older long-standing bugs may not get fixed. We'll get a longer blog post about the state of jQuery UI when we release 1.13 final. Note that this does not affect jQuery Core which is still actively maintained.

Comments

Note: please report bugs to the jQuery UI Bug Tracker (https://github.com/jquery/jquery-ui/issues); support questions should be posted on Stack Overflow with the jquery-ui tag (https://stackoverflow.com/questions/tagged/jquery-ui). Please don't use comments to report bugs.

If you have feedback on us doing our release for jQuery UI 1.13.0, feel free to leave a comment below. Thank you.

9 THOUGHTS ON "JQUERY UI 1.13.0 RELEASED"

David on October 7, 2021 at 8:24 am (https://blog.jqueryui.com/2021/10/jquery-ui-1-13-0-released/#comment-20735):

jQuery is one of the best supported plugin I have ever used. Thank you everyone involved for the frequent updates and development.

yves on October 8, 2021 at 7:58 am (https://blog.jqueryui.com/2021/10/jquery-ui-1-13-0-released/#comment-20740):

CDN from google is not working !

Michał Gołębiowski-Owczarek on October 8, 2021 at 3:13 pm (https://blog.jqueryui.com/2021/10/jquery-ui-1-13-0-released/#comment-20742):

yves: we sent the CDN bundle to Google & Microsoft but we don't control when they upload the files. The links should start working as soon as they do; before that, you can use the jQuery CDN.

David on October 11, 2021 at 5:13 am (https://blog.jqueryui.com/2021/10/jquery-ui-1-13-0-released/#comment-20758):

"A few security issues have been fixed."

These aren't marked in the changelog. Is there a list of the specific issues that were fixed anywhere? Are CVEs being obtained for these issues?

yves on October 12, 2021 at 9:20 am (https://blog.jqueryui.com/2021/10/jquery-ui-1-13-0-released/#comment-20769):

Thank you Michał
Huge fan of all the work you have done on Jquery and UI.!!
Big tks

Michał Gołębiowski-Owczarek on October 25, 2021 at 1:32 pm (https://blog.jqueryui.com/2021/10/jquery-ui-1-13-0-released/#comment-20891):

David: I just published 3 advisories & I mentioned them in this blog post. I also requested CVEs for them.

yxsh on November 1, 2021 at 10:55 am (https://blog.jqueryui.com/2021/10/jquery-ui-1-13-0-released/#comment-20914):

Hello!
How can I install JQUERY UI 1.13.0 using Nuget Package Manager inside Visual Studio, which is required by my company?

Grant Wagner on November 5, 2021 at 6:27 am (https://blog.jqueryui.com/2021/10/jquery-ui-1-13-0-released/#comment-20935):

Is it possible to please send the necessary files to NuGet?

They are still hosting 1.12.1.1

https://www.nuget.org/packages/jQuery.UI/ (https://www.nuget.org/packages/jQuery.UI/)

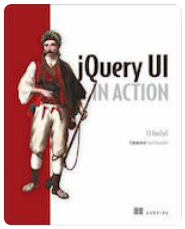

Thanks!

yxsh on November 5, 2021 at 8:50 am (https://blog.jqueryui.com/2021/10/jquery-ui-1-13-0-released/#comment-20936):

@Grant Wagner, exactly :)
