OSIDB Bzimport  2024-10-23 01:55:08 UTC[Description](#)

A vulnerability was found in Keycloak-services package. If untrusted data is passed to the method (SearchQueryUtils), it could lead to a denial-of-service scenario by exhausting system resources.

[Comment 13](#)

Thanks for the detailed update and references. It's good to see this Keycloak issue has been properly addressed across supported versions via official Red Hat advisories. Staying on top of security fixes like this is critical. For anyone also dealing with time tracking or work-hour calculations alongside system administration tasks, <https://calcoloorelavorative.it/> can be quite useful in day-to-day workflows.
