Millennium Mp3 Studio is a new generation of MP3 players. It offers 24 bands of EQ so you can enjoy your MP3 music as desired.

Disclaimer: it seems that the publisher's website is closed and that the software hasn't been updated for several years - the version linked to this page is the latest to exist. It may no longer work on your computer or run with recurring error messages. We recommend that you consider an [alternative software](#).

publicité

It features a customizable interface and includes all the features of a good audio player software: create playlists, edit ID3 tags, CD burning, looping, the spectrum, and much more. In short, this player can be used as a small studio for your musical experiences.
