

Comprehensive Protection Optimized Performance One Price

Secure every aspect of your website with Comodo Website Security. Experience the ultimate peace of mind with state-of-the-art defenses against threats, ensuring your site stays safe, fast, and always accessible.

[Secure My Website](#)[Protect My Devices](#)

The screenshot shows the COMODO Defense Center interface. On the left is a navigation sidebar with options: Dashboard, Scans, Defense Center (selected), Performance, DNS Management, Backup, and Trust. The main content area is titled 'Defense Center' and includes a 'Firewall Settings' link. It features several data visualization components:

- Firewall Activity:** Shows 300 Firewall catches with a 'View all' link.
- Top Custom Rules:** A pie chart showing categories: Monitor Uptime, Hosting Service Traffic, Invalid User Agent Prevention, and Other. A 'View Custom Firewall Rules' link is provided.
- Top Threat Countries:** A section titled 'THREAT ORIGINS' with a message: 'No threat countries found'.
- Blocked:** A line graph showing blocked traffic over time from 01 Jan to 08 Jun. The y-axis ranges from 0 to 100. A legend indicates the data represents 'Blocked' traffic.

 A 'TIMELINE' for 'April 14, 2024 - May 14, 2024' is also visible. A text box on the right provides context: 'Gain insights about the kinds of traffic the cWatch Firewall is blocking and write new custom rules to further enhance your defense against cyber attacks.'
