CleanShot

Introducing Studio Mode

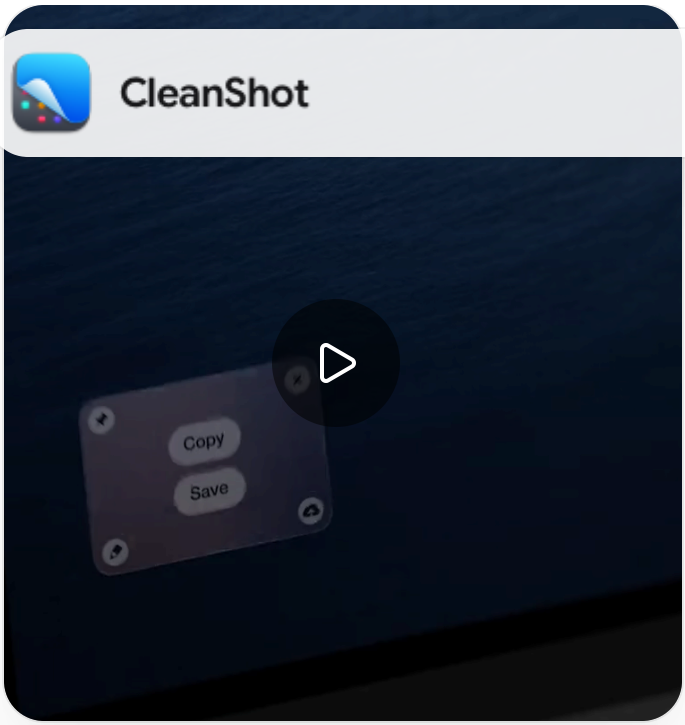

There are average capture apps. And there's CleanShot.

The Mac-native toolkit for screenshots, recordings and collaboration.
Trusted by 250,000+ users.

How it works

30-Day Money-Back Guarantee >

CleanShot is an exceptionally well e
product. Quickly turned into my scre
of choice. Bravo.

Trusted by teams at:

MacPaw Linear Vercel

Always one drag away

Capture something and it's instantly ready to share. Save it, copy it, or drop it straight into any app. No folders to dig through, no flow to break.

Screen recordings worth sharing

Record your screen in a few clicks, then export a polished video or a quick GIF. Everything you need to make it look great is already built in.

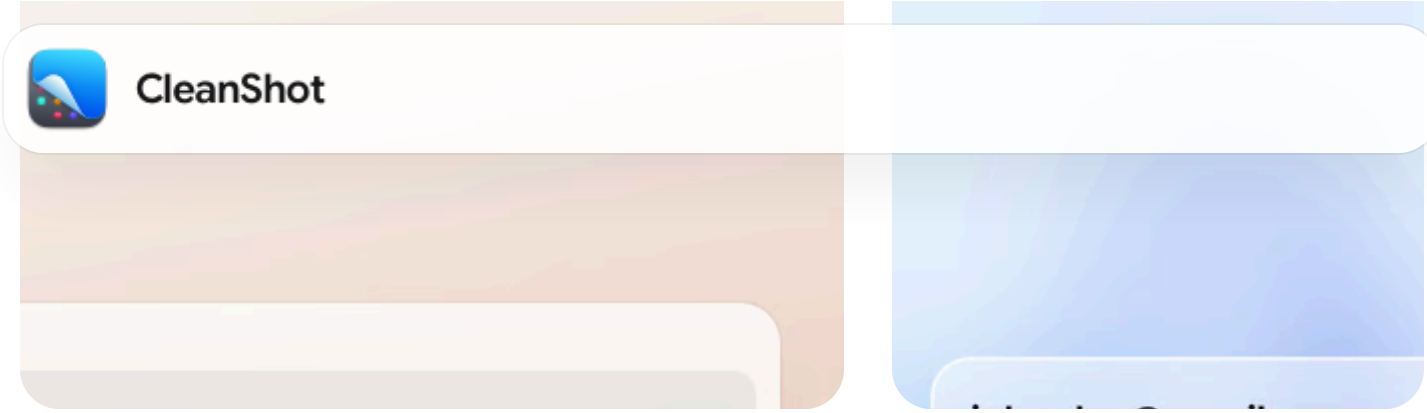

Explore recording

Add your camera

Add a webcam bubble to your recording so people see you, not just your screen.

Highlight every click

Make clicks easy to follow with automatic highlights.

Show keystrokes

Display shortcuts and key presses while you record.

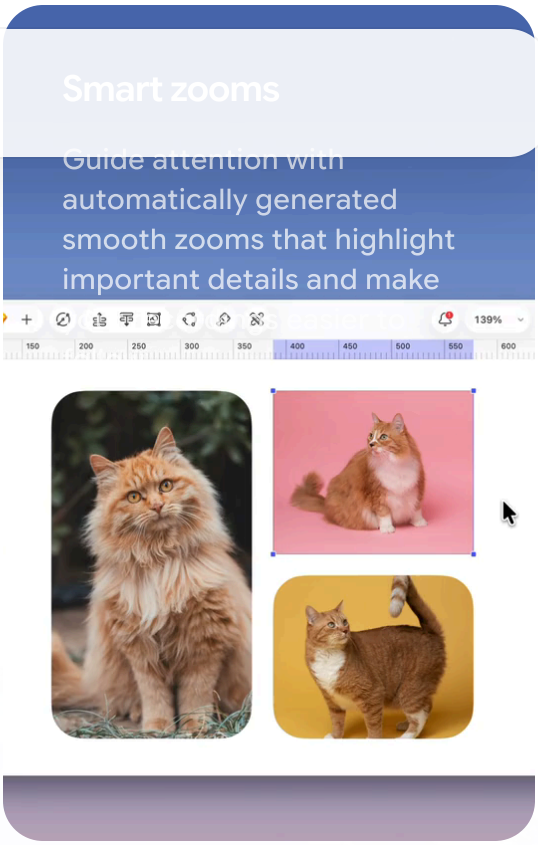

Voice and system audio

Capture what you say and what you hear, perfectly synced with your screen.

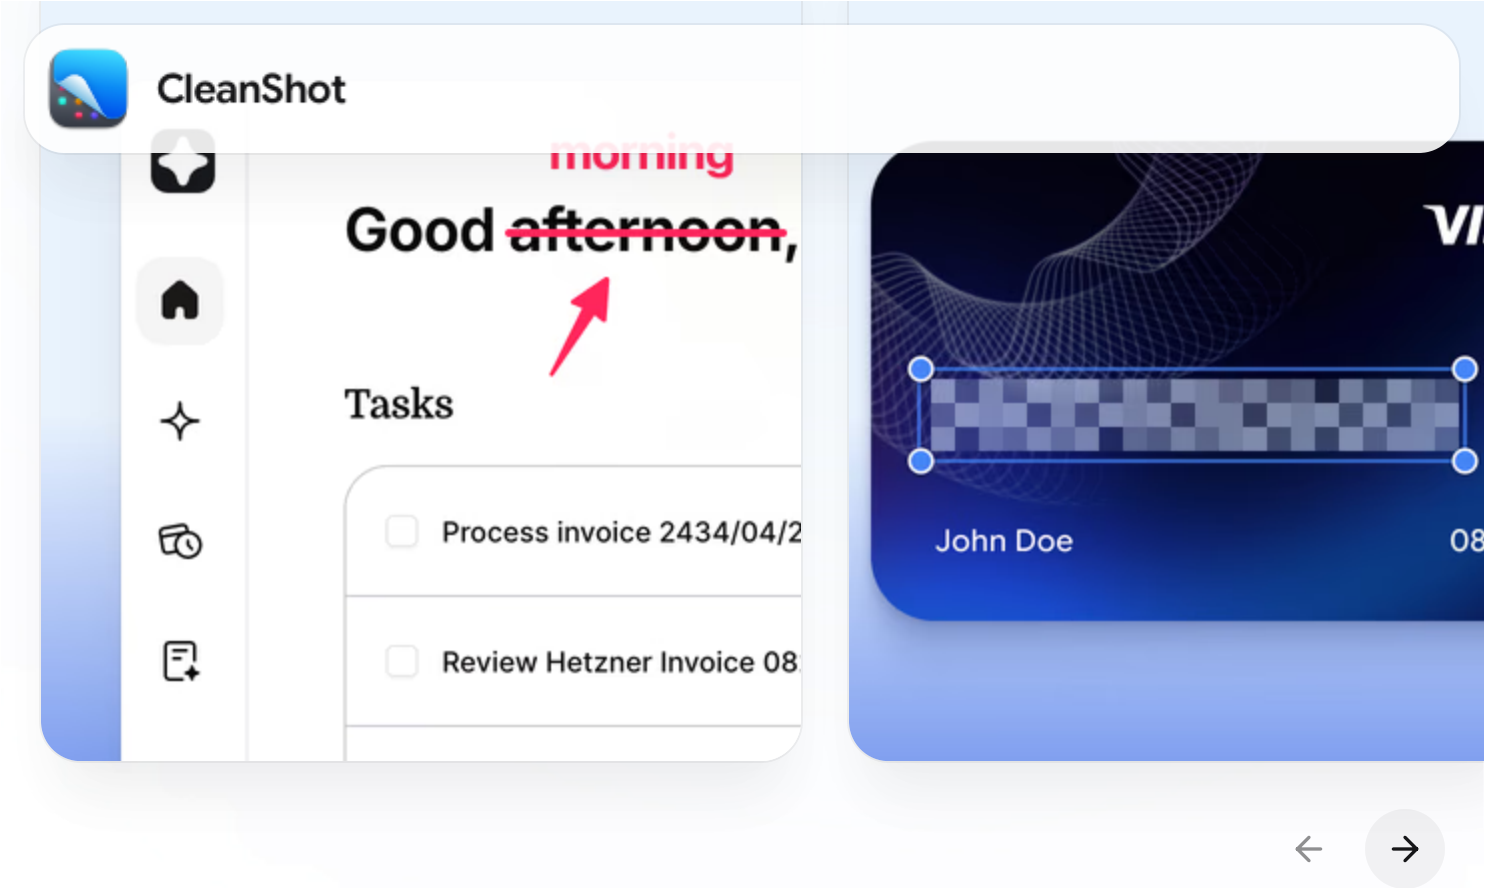

Make your point, fast

Mark up details, hide sensitive information, add beautiful backgrounds, and crop when needed. All without leaving CleanShot.

Redact

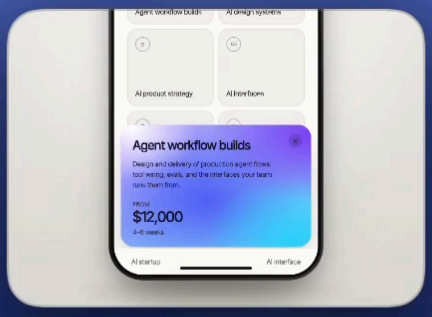

Share with CleanShot Cloud

Share screenshots and recordings instantly, gather feedback, and keep every capture easy to find, whether you work solo or with a team.

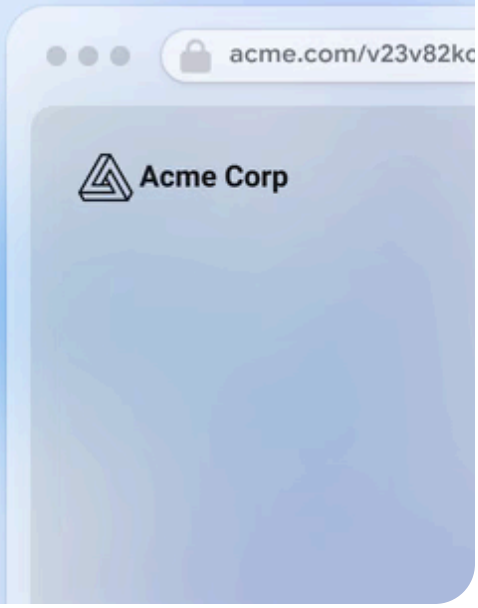

Explore CleanShot Cloud

CleanShot

Upload any screenshot or recording and get a clean link instantly, ready to send anywhere.

Custom domain and branding

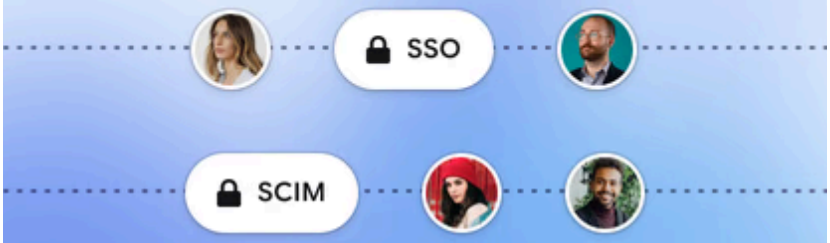

Enterprise-grade security

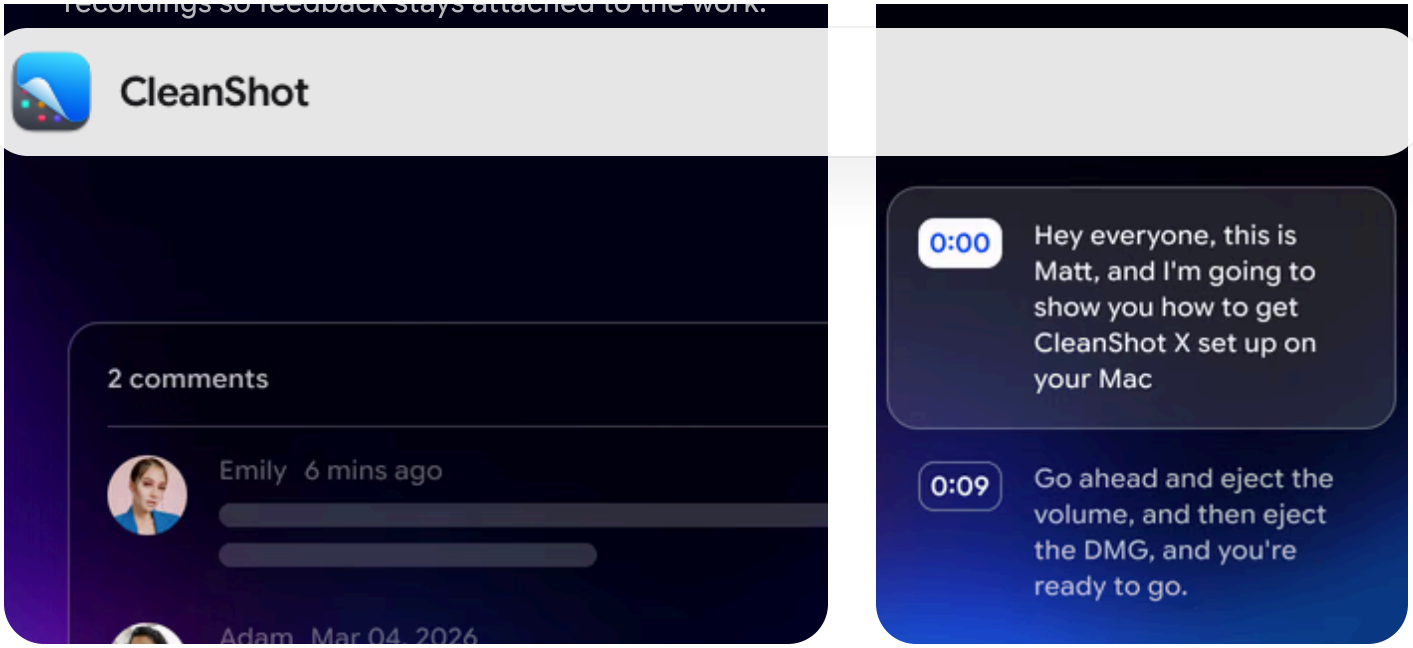

ISO 27001

Ready for teams

Start simple, then add SSO, SCIM, and admin controls when your team needs them.

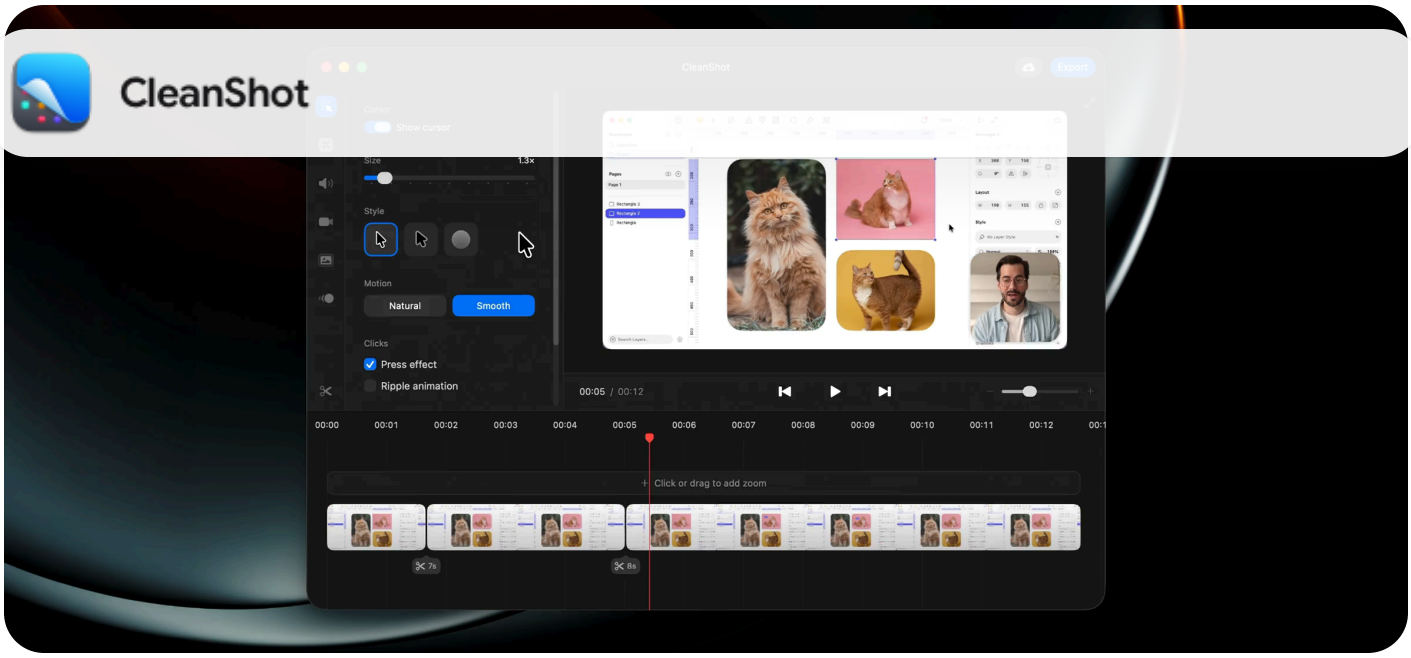

Video Editor

Introducing Studio Mode

Turn raw screen recordings into polished videos with a fast, Mac-native editor built right into CleanShot. Add zooms, trim mistakes, and fine-tune every detail before you export.

Explore recording

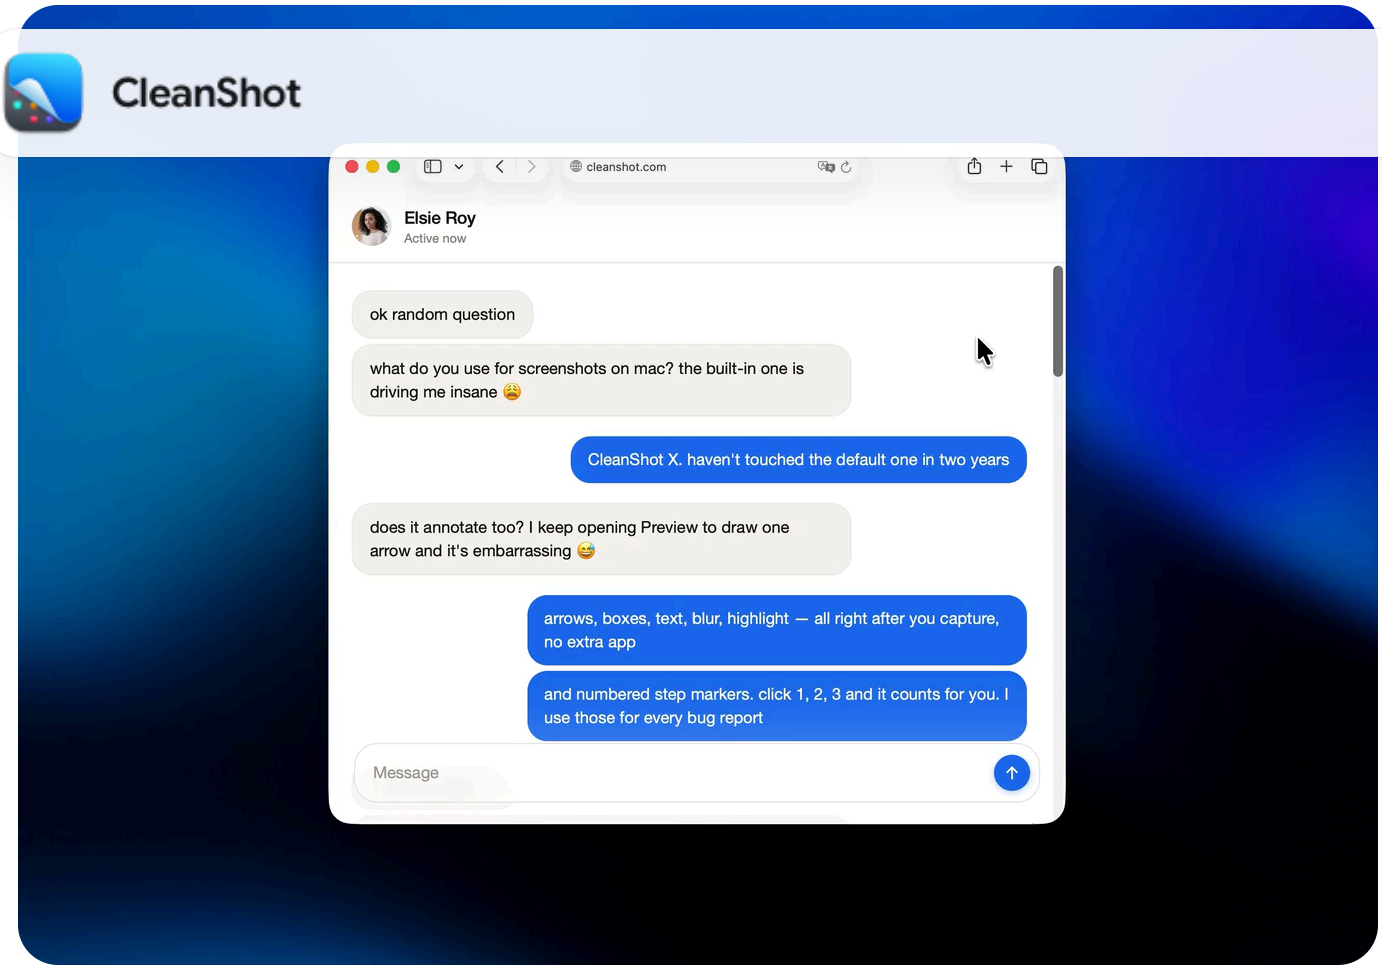

Scrolling Capture

Capture full pages, long chats, documents, and code that stretch beyond your screen, all in one clean screenshot.

- Capture any scrollable content
- Works in every app

Explore screenshots

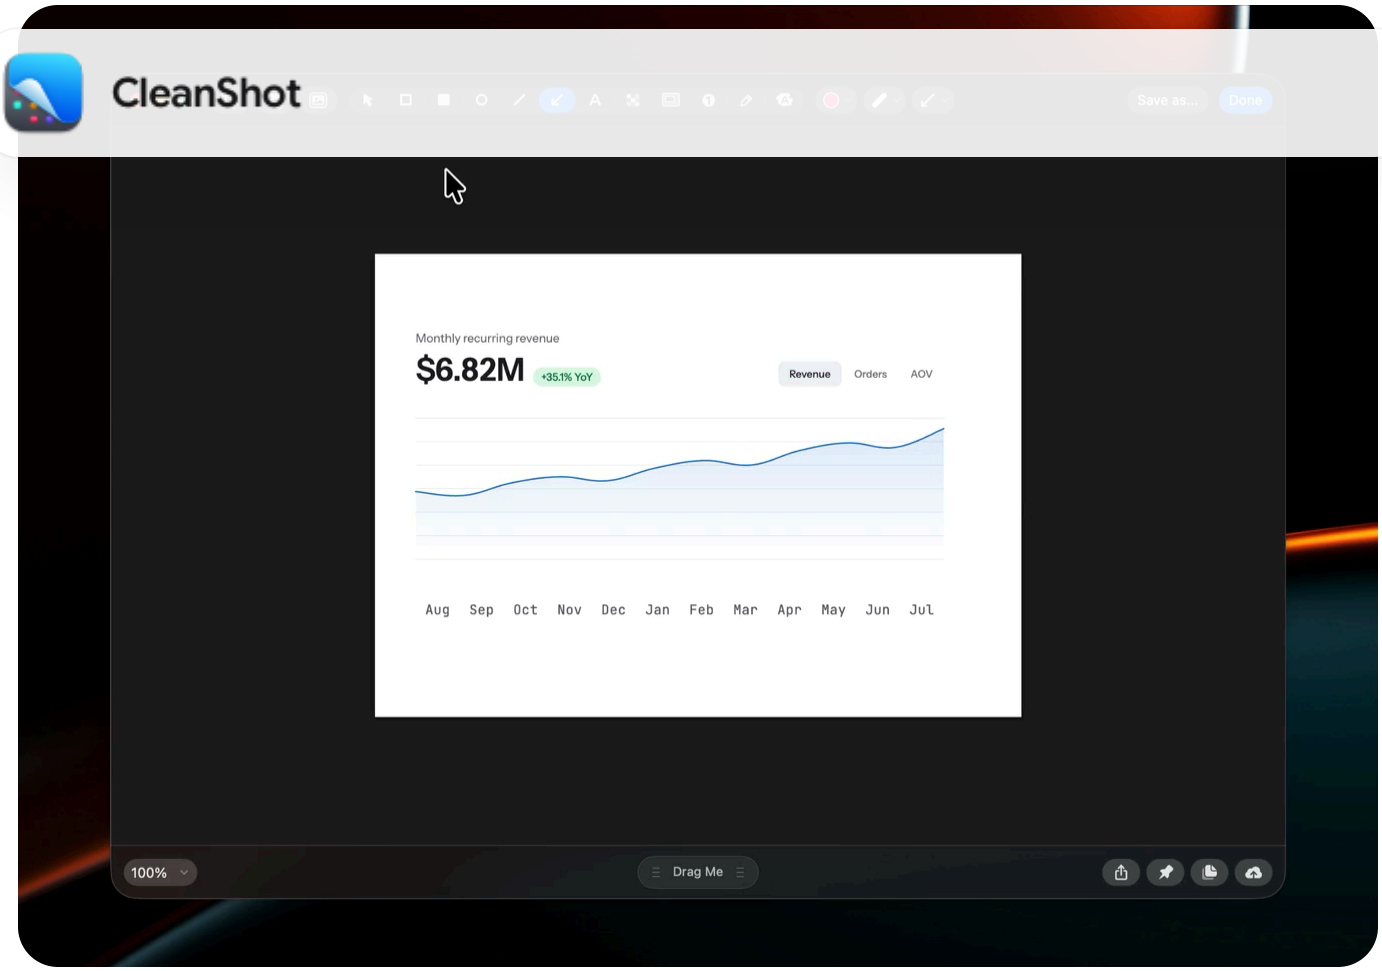

Background Tool

Turn plain screenshots into polished visuals with beautiful backgrounds, padding, shadows, and custom styles, ready to share anywhere.

- Perfect for social posts and docs
- 20 beautiful backgrounds included
- Create your own presets

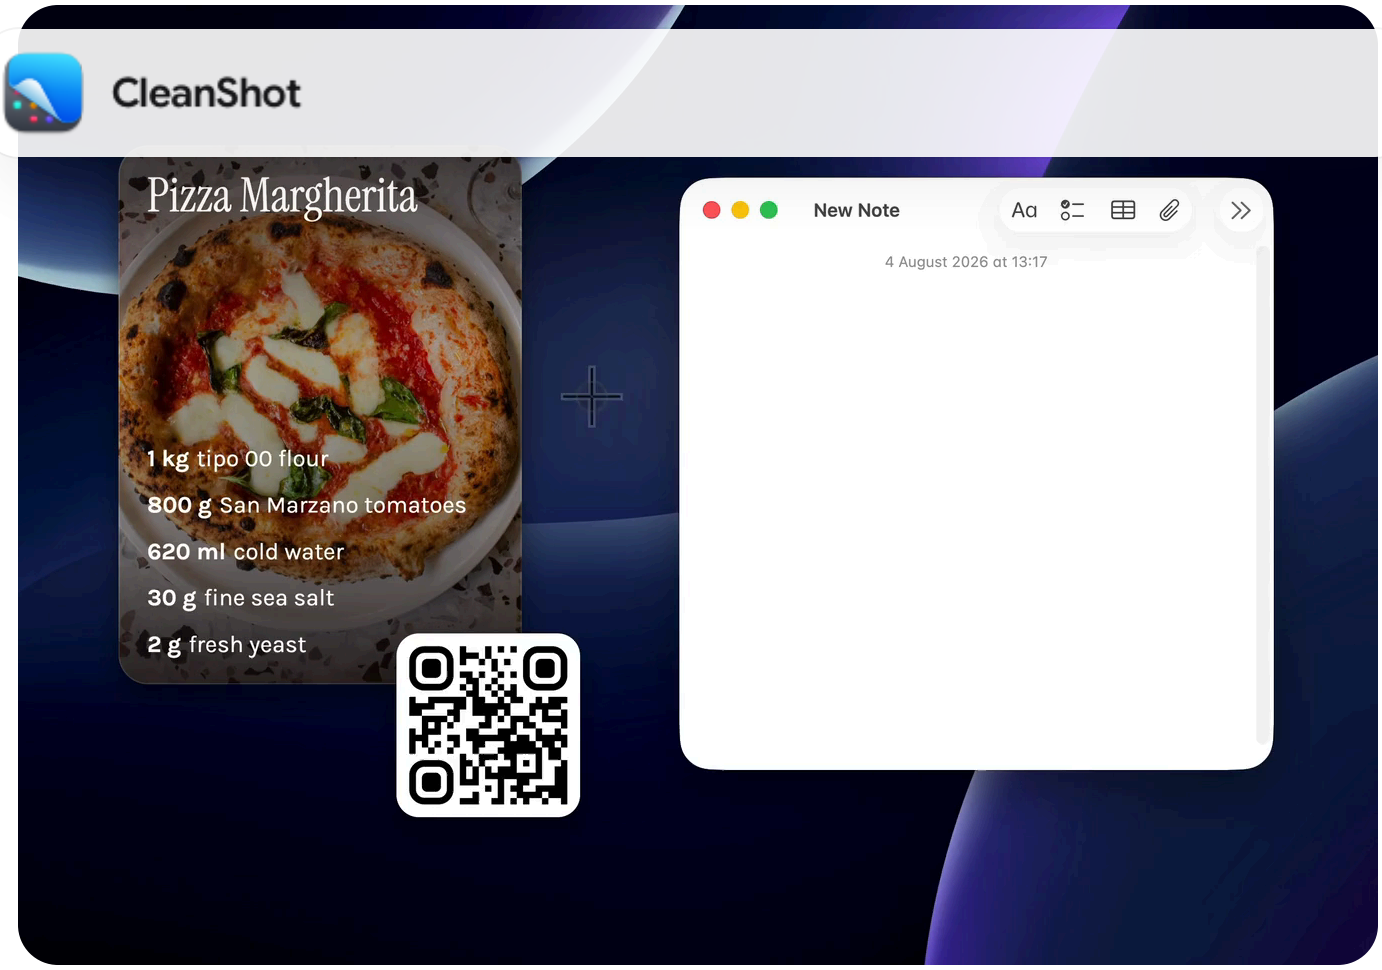

Learn more

Text Recognition

Copy text from screenshots, images, and scanned documents in seconds, with fast on-device recognition built into CleanShot.

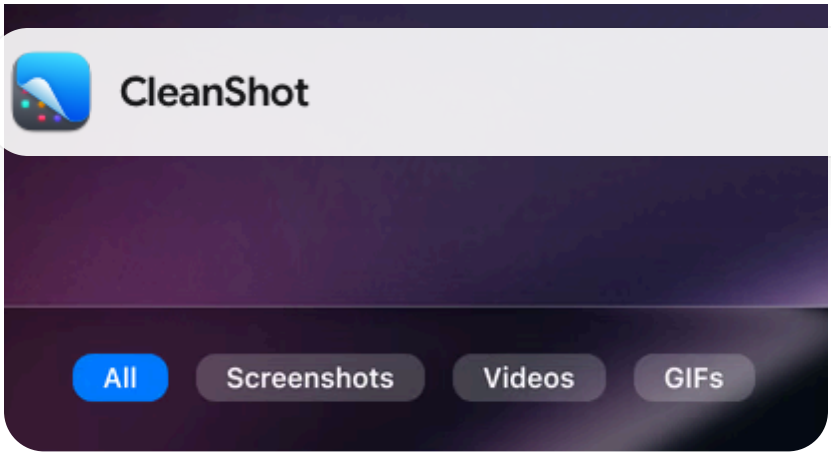

- Copy text from any image
- Read QR codes instantly
- Fast and private by design

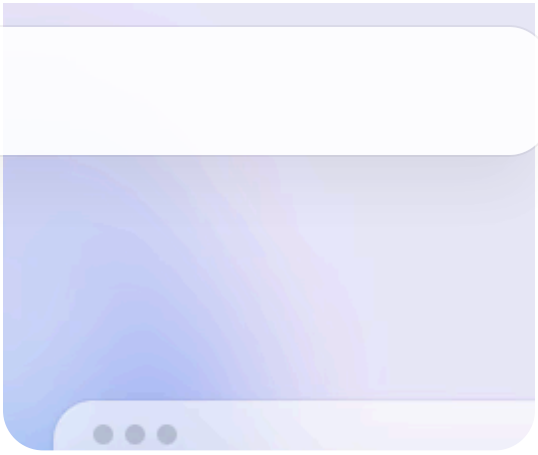

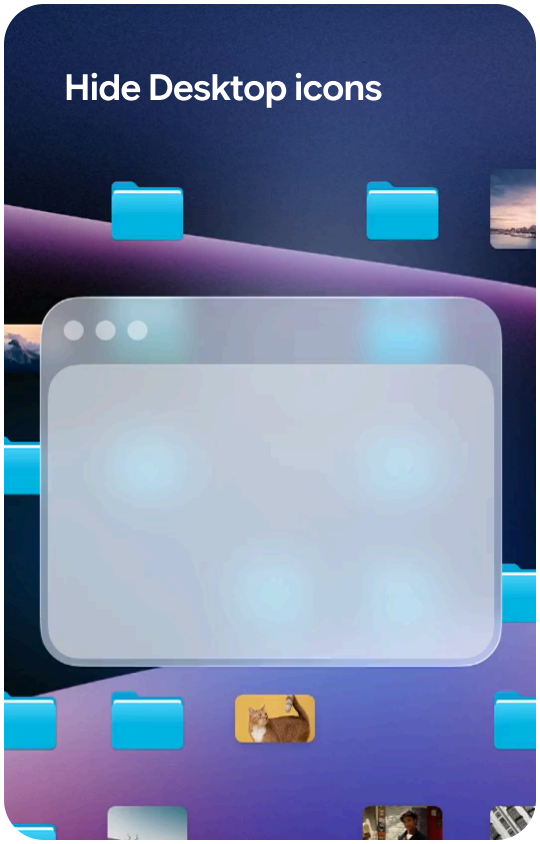

Built for everyday Mac workflows

Pin screenshots

Keep any screenshot visible above other windows while you compare, reference, or copy details.

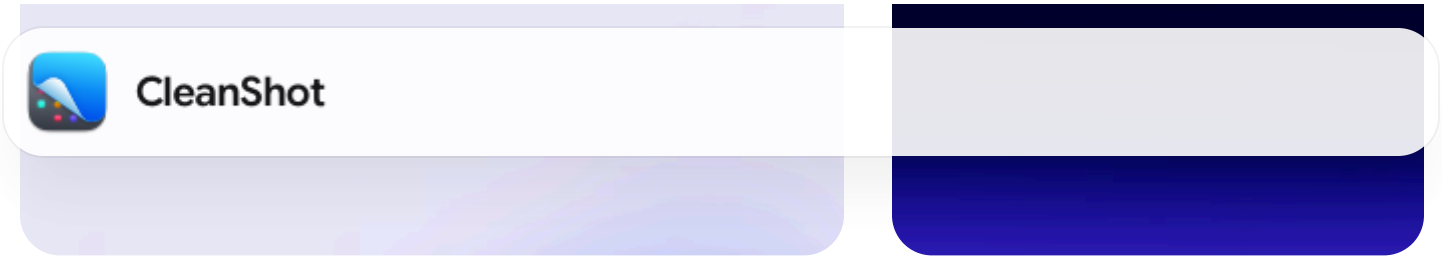

Make it yours

Customize shortcuts, capture behavior, file formats, and sharing options to match the way you work.
