Legal

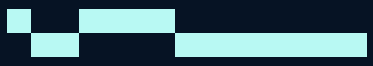

Private. Secure. Compliant.
This is what enterprise-ready AI looks like

cohere
Secure by design
Safeguard sensitive data with a zero-trust security framework, precise access controls, and audit-ready visibility.
Learn more →

cohere

Fully customizable

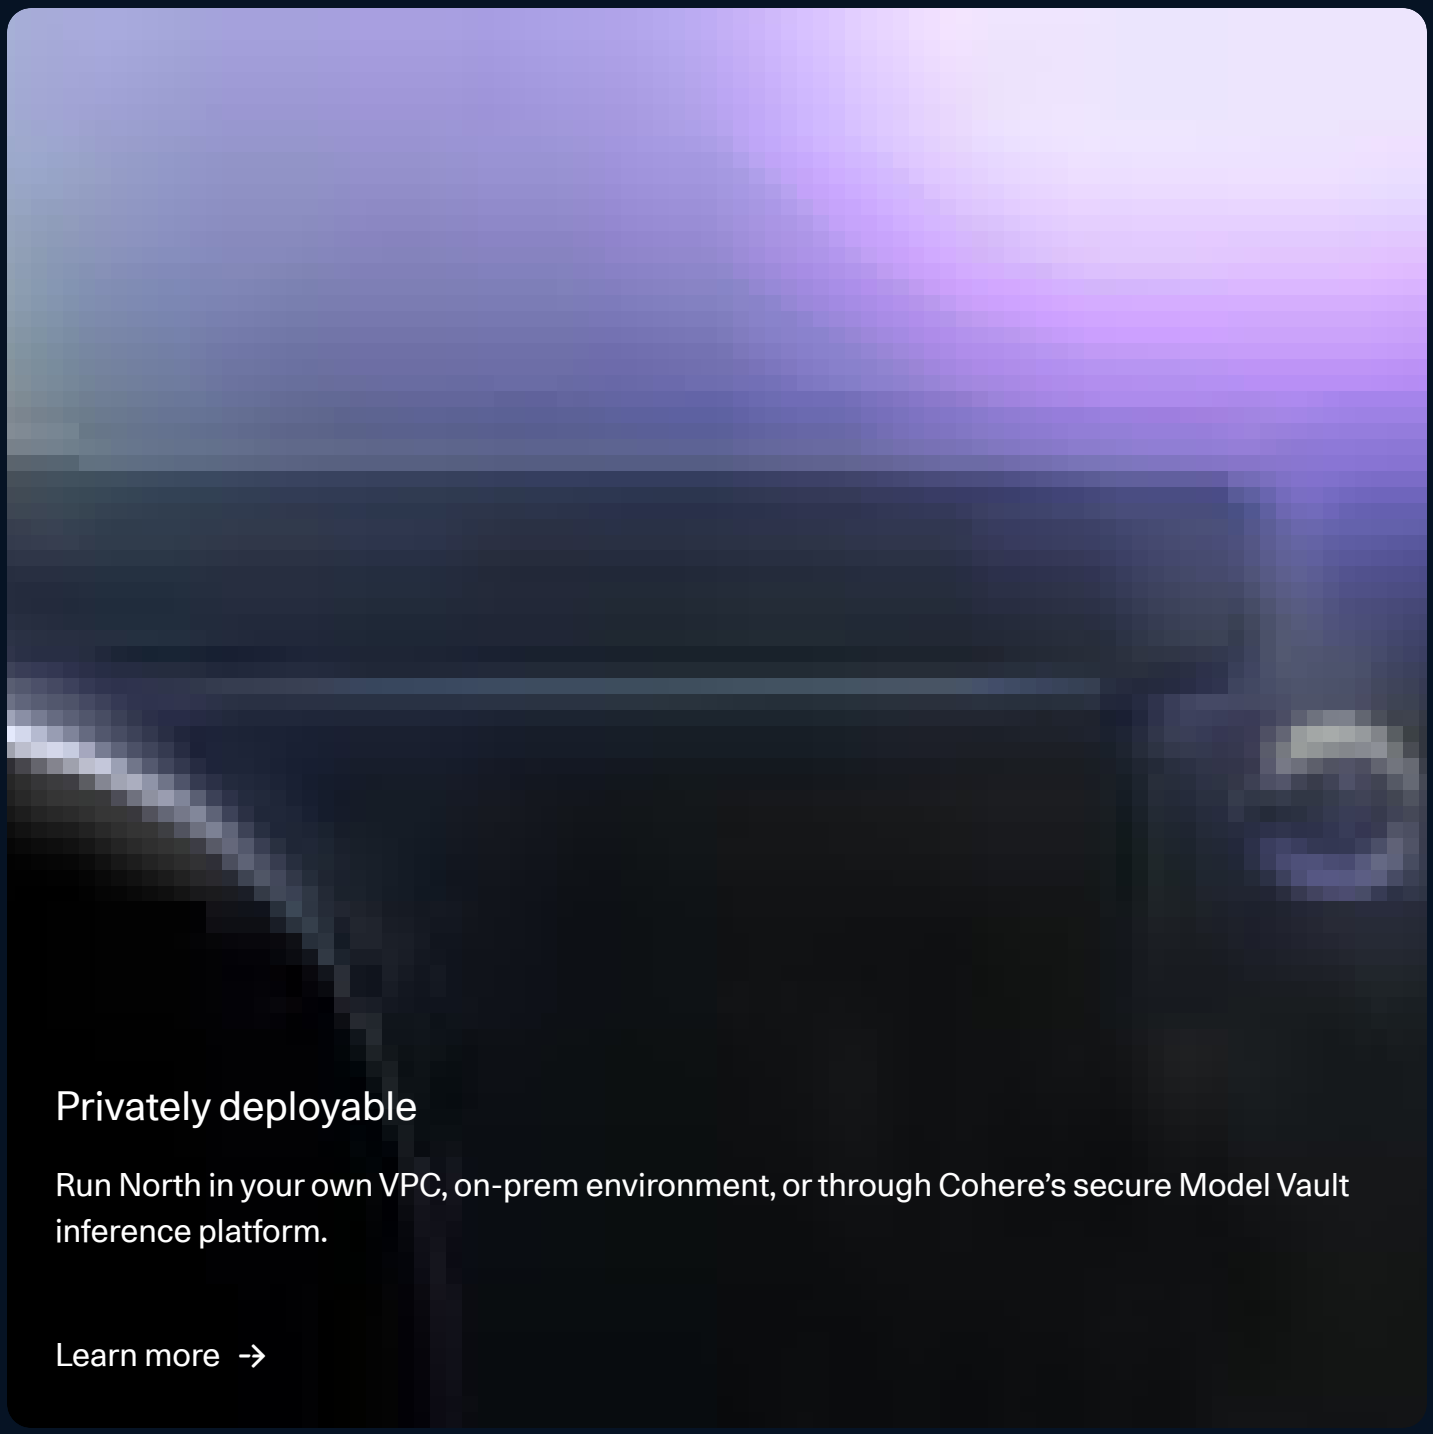

Design and deploy agent-powered workflows tailored to your team's tools, processes, and objectives.

Natively interoperable

Connect North to existing tools, data, and monitoring systems with flexible APIs and built-in connectors.

cohere

Privately deployable

Run North in your own VPC, on-prem environment, or through Cohere's secure Model Vault inference platform.
