Divi Membership

Monetize your Divi websites by transforming them into membership sites with seamless subscription management, user-friendly interfaces, and customizable membership tiers.

Buy Now

Divi Membership | 3.0.1 Overview Documentation

Turn a Divi site into a membership site

Divi Membership lets you sell access to the pages and posts you already design in Divi. Set the plans and prices, take payment without WooCommerce, and decide who can read each piece of content. It works on Divi 4 and Divi 5.

How members join, pay, and stay

Price each plan the way you actually sell

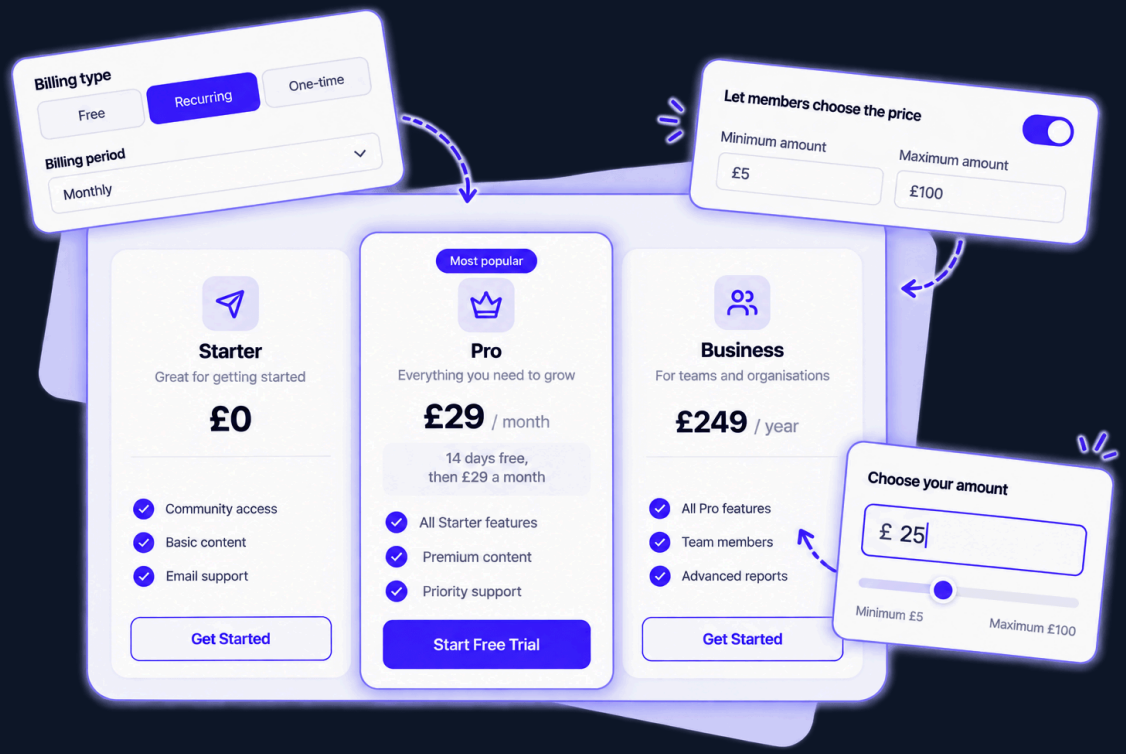

Divi Membership | 3.0.1 Overview Documentation

Build as many memberships as you need, then give each one its own prices. Monthly, yearly, free, or a one-time payment that lasts a set time.

Each price shows a plain summary, such as 14 days free, then £29 a month, so you can check a plan at a glance. Members can also choose their own amount, inside a minimum and maximum you set.

- Free, recurring, and one-time plans
- A price members choose themselves
- A short summary of each billing period

How to add a plan

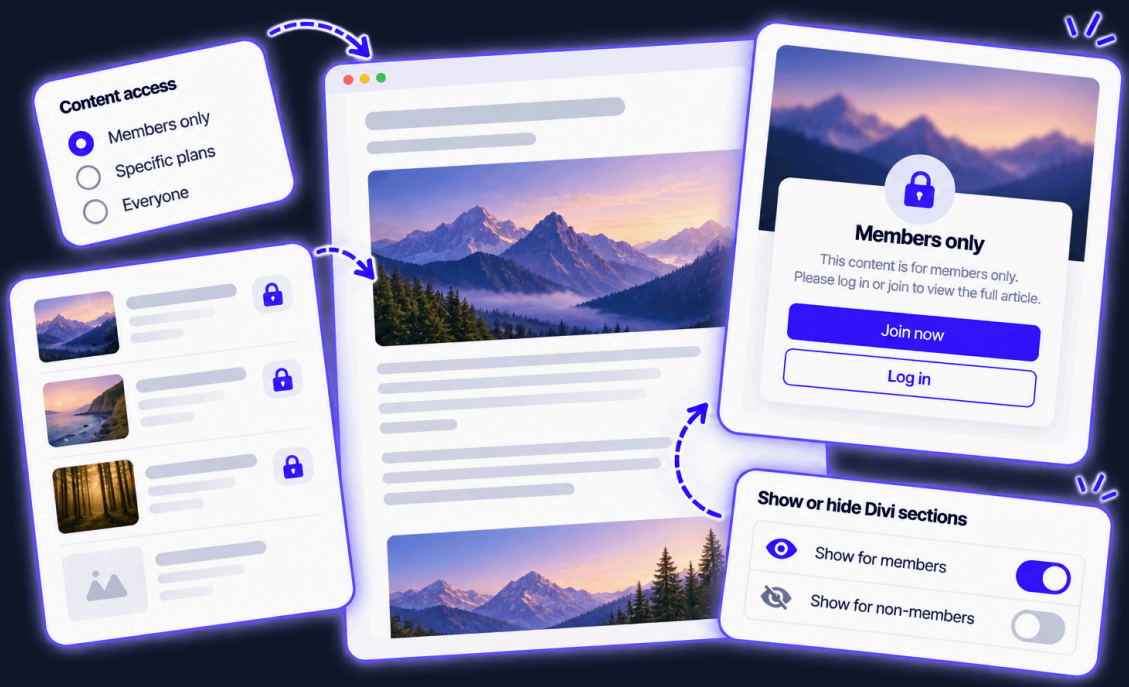

who paid

Divi Membership | 3.0.1 Overview Documentation

Lists and archives can show a teaser, and any Divi section can appear or disappear based on whether someone is a member.

- Different access for each plan
- A message or a Divi layout for everyone else
- Show or hide sections by membership

How content restriction works

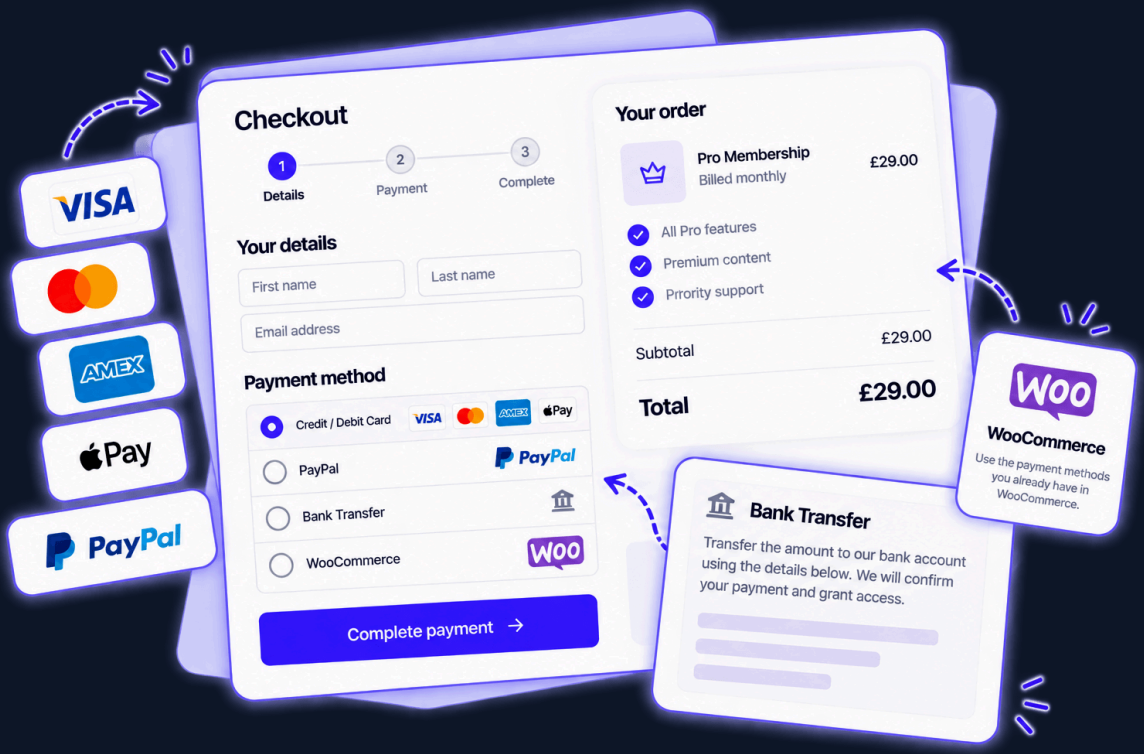

CHECKOUT

membership. Bank transfer is there too: the member gets the instructions, and access starts when you mark the payment received.

payment methods you already use.

- Cards and other Stripe methods, plus PayPal
- Bank transfer, with access after you confirm payment
- Optional checkout through WooCommerce

Payment options

MEMBER ACCOUNT

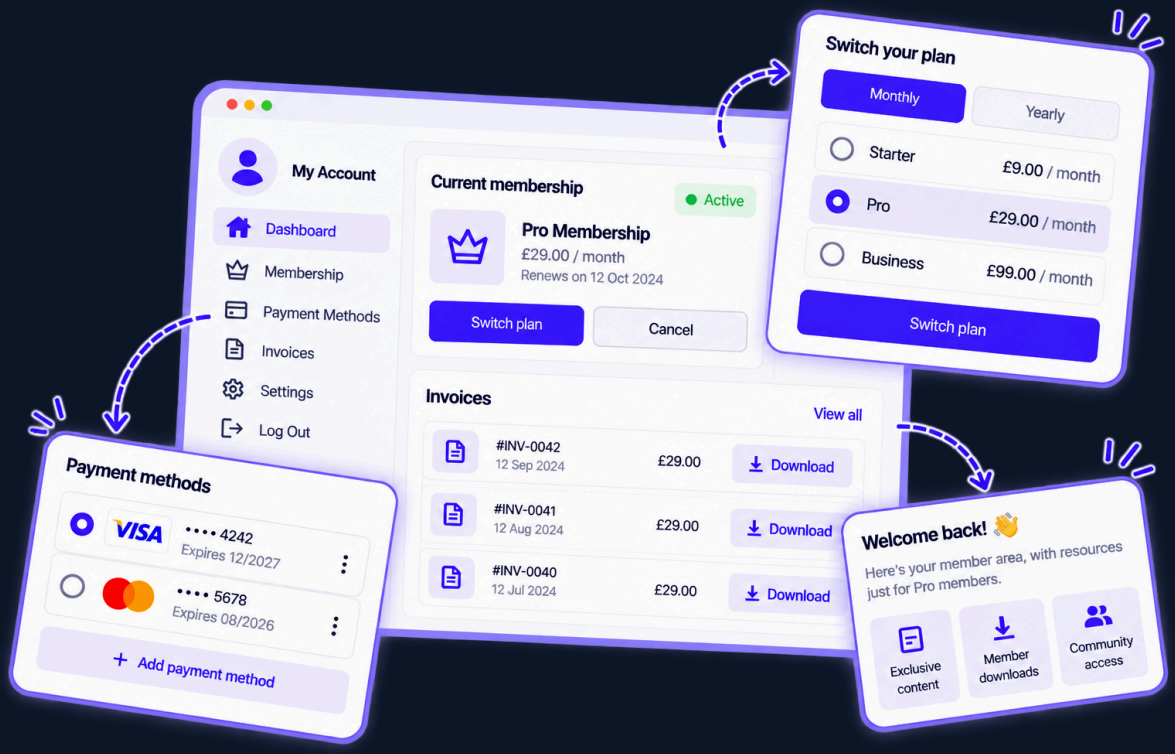

Members manage their own plan

The account page shows the current membership, saved cards, and invoices.

- Update a card, download invoices, or cancel
- Switch plan or billing period

Divi Membership | 3.0.1 Overview Documentation

The member account

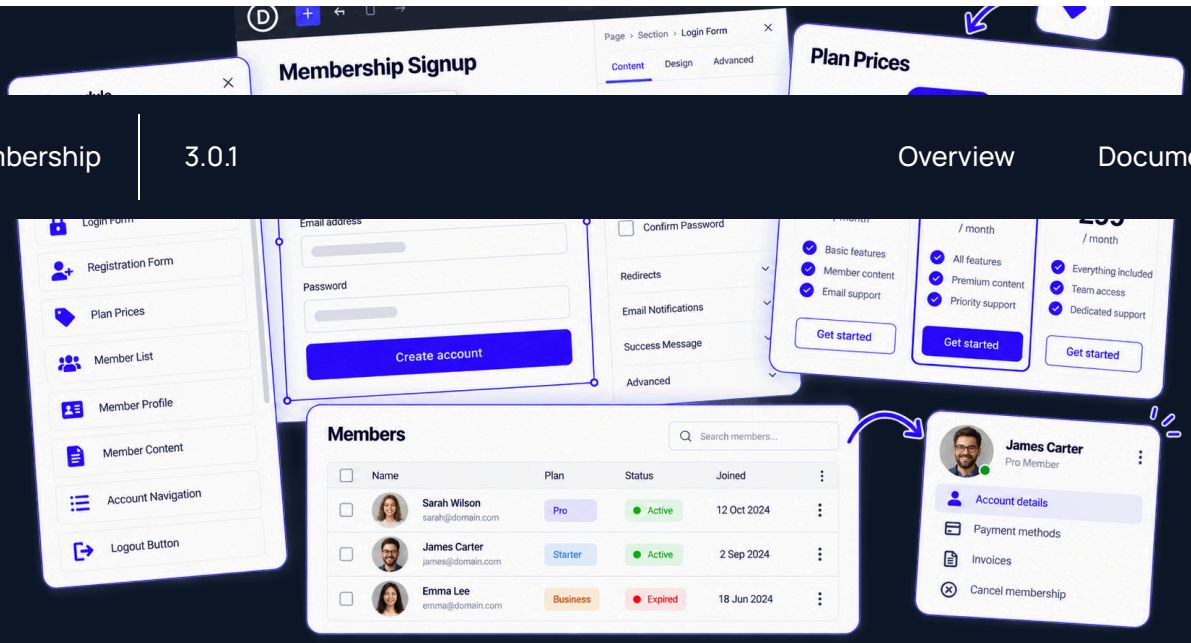

DIVI BUILDER

Build the membership pages in Divi

Registration, signup, login, plan prices, and member lists are Divi modules. Style them like the rest of the site, on Divi 4 or Divi 5.

- Registration, signup, and login forms
- Plan prices, with a switch between monthly and yearly
- A member directory, or a single member

Reports

See signups, revenue, and trials in one place, and export the numbers when you need them.
About reports

PDF invoices

Members download a PDF invoice for each payment, with your business details on it.
About invoices

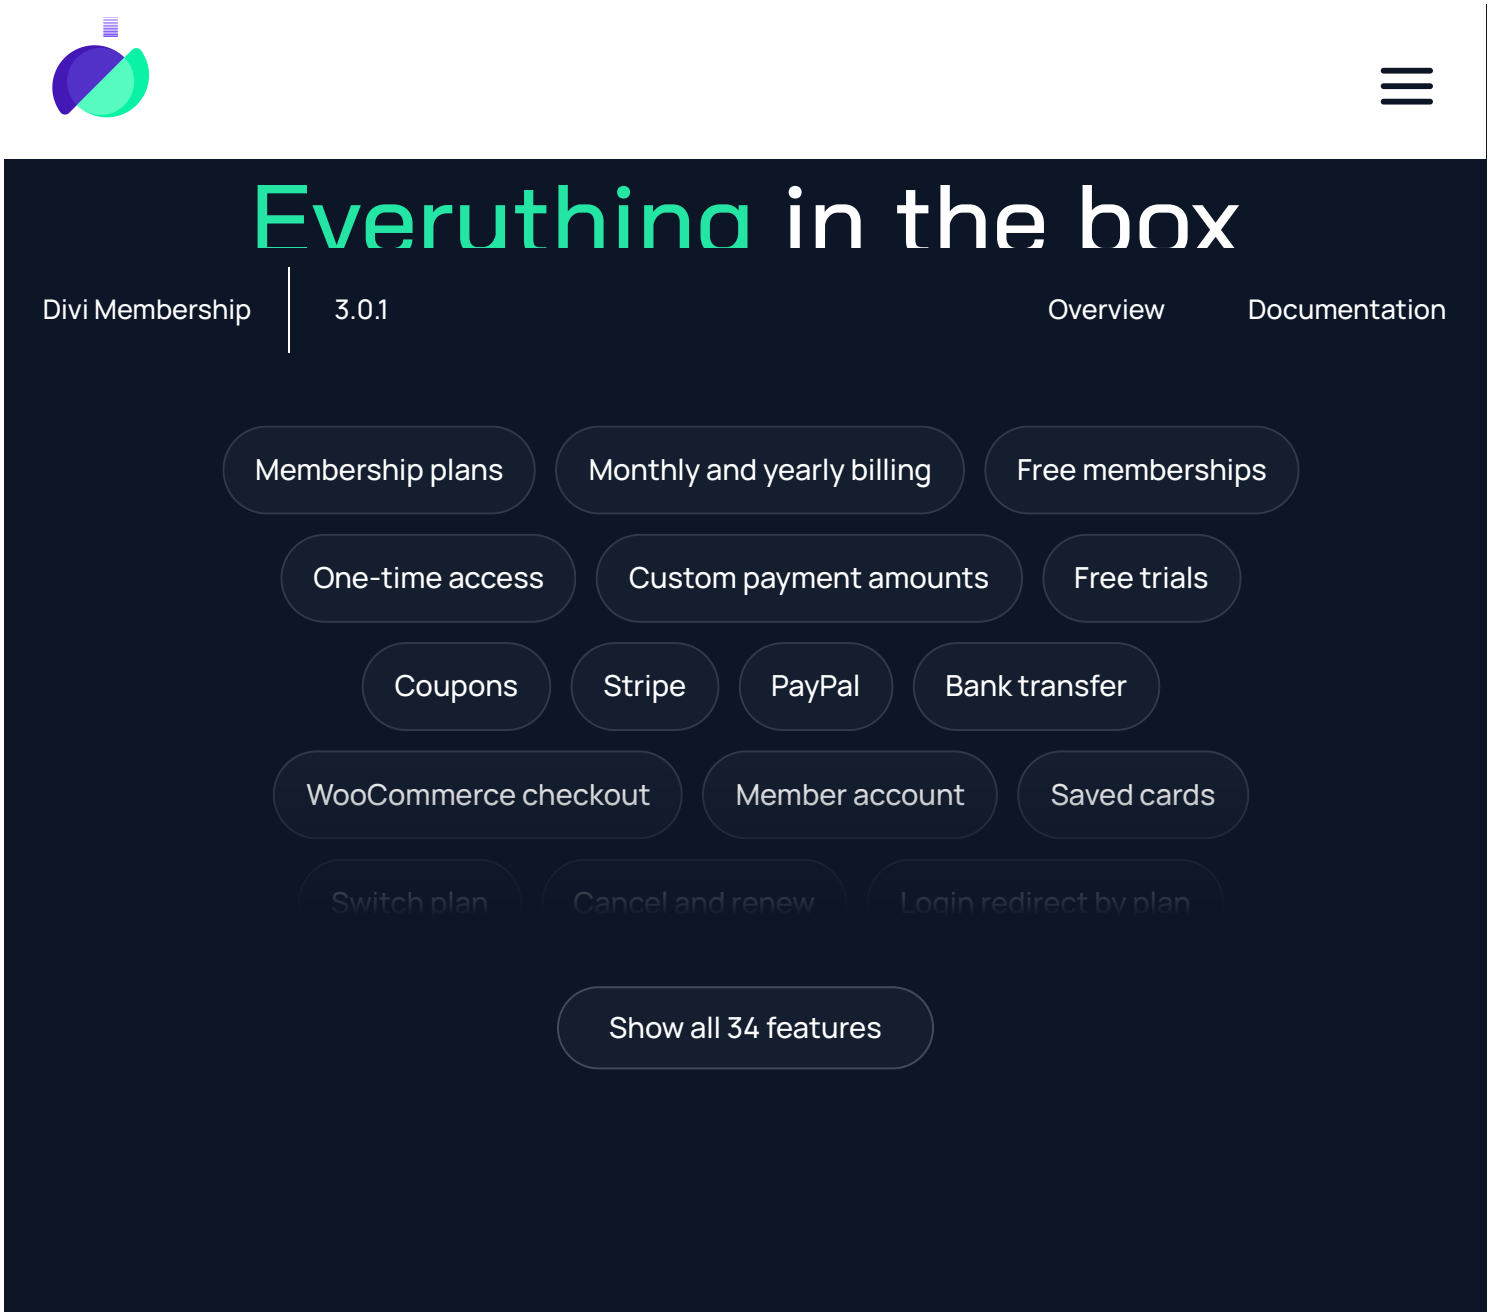

People who already paid

Put existing customers on a plan without charging a card, and record an invoice or leave that off.

About member management

WooCommerce shop perks

Give members a shop discount, hide products until they join, or let them look but not buy. Recurring checkout through WooCommerce needs WooCommerce Subscriptions.
