
divi plus

== Changelog ==

= 2.5.0 =
Release date: 16th October 2026
*ADDED: Placeholder content for newly added modules in the Divi 5 builder, so they no longer appear empty: Advanced Tooltip, Alert Box, Bar Counter, Before After Slider, Content Toggle, Coupon, Double Color Heading, Flip Box, Image Hover Effect, Image Magnifier, Lottie, Modal, Promotion Bar, Scroll Image, Scrolling SVG, Split Image, Star Rating, Sticky Video, SVG Animator, Text Animator, Text Highlighter, Tilt Image and Video Mask.
*ADDED: Starter items for newly added parent modules in the Divi 5 builder, so they no longer appear empty: Accordion Slider, Advanced Table, Background Switcher, Bar Chart, Business Hours, Button, Comparison List, Dropdown Button, FAQ Page Schema, Floating Image, Hero Slider, Horizontal Scrolling Card, Hotspot, Hover List, How To Schema, Image Accordion, Image Card Carousel, Image Stack, Interactive Circle, List, Logo Slider, Pie Chart, Price List, Scroll Stack Cards, Tabs, Text with Media, Timeline and Vertical Image Slider.
*ADDED: Dynamic content support for content fields in Divi 5 modules, including titles, descriptions, button text, links and images.
*FIXED: (Bar Counter) Resolved an issue where the Layout 1 bar was not filled in the Divi 5 builder.
*FIXED: (Flip Box) Resolved an issue where the flip effect was not working in the Divi 5 builder.
*FIXED: (Image Card) Resolved an issue where the icon was positioned incorrectly when Style Icon was disabled.
*FIXED: (Lottie) Resolved an issue where the animation did not play in the Divi 5 builder.
*FIXED: (Tilt Image) Resolved an issue where the tilt effect was not working in the Divi 5 builder.
*FIXED: (Tilt Image) Resolved an error in the Divi 5 builder when Disable Axis was enabled.

*FIXED: (Tilt Image) Resolved an issue where the Max Glare setting had no effect.
*FIXED: (Tabs) Resolved an issue where the tab content was not displayed and tabs could not be switched in the Divi 5 builder.
*FIXED: (Dropdown Button) Resolved an issue where the dropdown icon was not visible on the button by default.
*FIXED: (Text with Media) Resolved an issue where the last item was misaligned with the other items.
*FIXED: (Hover List) Resolved an issue where the hover image did not appear in the Divi 5 builder.
*FIXED: (Accordion Slider) Resolved an issue where the slide content was not visible or disappeared in the Divi 5 builder.
*FIXED: (Background Switcher) Resolved an issue where the background image was not visible until an item was hovered in the Divi 5 builder.
*FIXED: (Hero Slider) Resolved an issue where the slide's Content Box background color setting appeared empty instead of showing the slider's color in the Divi 5 builder.
*FIXED: (Horizontal Scrolling Card, Horizontal Scrolling Posts, Horizontal Scrolling Portfolio) Resolved an issue where the first or last items could not be fully scrolled into view when the module was near the top or bottom of the page.
*FIXED: (Star Rating) Resolved an issue where half a star and (0.5/5) were displayed on Divi 5 when no rating was set.
*FIXED: (Blog) Resolved an issue where the No Result Text was not displayed when no posts were found.
*FIXED: (Blog) Resolved an issue where the Post Offset Number setting was labelled Number of Posts in the Divi 5 builder.
*FIXED: (Horizontal Scrolling Card) Resolved an issue where the Animation Start Element and Animation Start Viewport settings had no effect.
*FIXED: (Mystery Image) Resolved an issue where the No Image Found notice was not shown in the Divi 5 builder.
*FIXED: (Image Accordion) Resolved an issue where the previous trigger kept working after changing the Trigger setting in the Divi 5 builder.
*FIXED: (Tilt Image) Improved security by escaping the image URL.

*FIXED: (Hotspot) Resolved a PHP warning when no hotspot image was set.
*FIXED: (SVG Animator) Resolved an issue where the animation did not play in the Divi 5 builder.
*FIXED: (Scrolling SVG) Resolved an issue where the drawing did not complete when the module was near the bottom of the page.
*FIXED: (Testimonial Slider, Testimonial Grid) Resolved an issue where the opening and closing quote icons were not displayed on Divi 5 and PHP warnings were logged.
*FIXED: (Bar Chart, Pie Chart) Resolved an issue where titles and labels containing special characters such as & were displayed as HTML entities.
*FIXED: (Twitter Embedded Tweet) Resolved an issue where the Fallback Content was not displayed.
*FIXED: (Image Card) Removed the dynamic content option that was wrongly shown on the Hide Title setting.
*FIXED: (Vertical Image Slider) Resolved an issue where the image alt text did not fall back to the item title.
*FIXED: (Portfolio Slider) Resolved an issue where an empty Live Link button was displayed for projects without a live link.
*FIXED: (Coupon) Resolved an issue where just opening the module settings in the Divi 5 builder saved today's date as the expiry date, making the coupon show as expired.
*FIXED: (Promotion Bar, Timeline) Resolved an issue where just opening the module settings in the Divi 5 builder saved today's date even though no date was picked.
*FIXED: (Marquee Text) Resolved an issue where line breaks in the marquee text were displayed as
tags instead of starting a new line on Divi 4.
*IMPROVEMENT: (Horizontal Scrolling Card) Cards can now be scrolled sideways in the Divi 5 builder, so every card can be reached and edited.

= 2.4.1 =
