Monetize Your Joomla Classified Ads Component

Transform your classified ads website into a robust revenue stream with DJ-Classifieds. Our Joomla software offers various ways to generate income, ensuring financial success. Promote listings and offer top placements to increase ad exposure. Implement flexible pricing strategies tailored to different categories and durations, effectively meeting diverse user needs. Customize your website to maximize revenue potential and enhance user engagement.

We use cookies to enhance your browsing experience, serve personalized ads or content, and analyze our traffic. By clicking "Accept All", you consent to our use of cookies.

Category-Based Pricing: Set unique prices for each category, including free options.

Ad Duration: Differentiate pricing by ad duration, e.g., 7 days free, year-long ads paid.

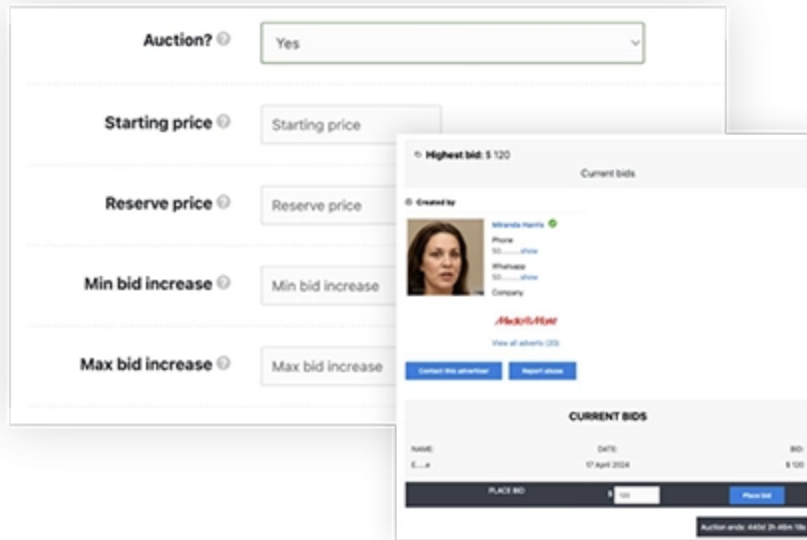

- **Promoted Adverts:** Charge extra for features like bold, border, background, and special display positions.
- **Move to Top:** Monetize the option to move ads to the top of listings.
- **Extra Images:** Charge for additional images beyond a set number.
- **Special Labels:** Monetize labels like "URGENT"
- **Extra Characters:** Charge for characters beyond a specified limit, ideal for long descriptions or print ads.
- **Banner and AdSense Placement:** Easily position banners or AdSense ads within the component.
- **Renewal Discounts:** Offer reduced renewal prices to keep users active.
- **Credit/Point System:** Implement an internal currency system where users purchase points for paid actions.
- **Subscription Plans:** Create subscription plans that bundle various features like adverts, images, and promotions, tailored to user needs.

Create Auctions on Your Joomla Classifieds Site

Enhance your classified ads website with robust auction capabilities. Our classified software enables effortless setup and management of auctions, offering users dynamic bidding options. Customize auction durations, starting prices, and bid increments to suit your market requirements. Boost user interaction with real-time bidding and automated notifications. Integrating auctions broadens your audience and enhances site profitability.

- **Auction Selling Option:** Users can choose to sell their items via auction, enhancing engagement.
- **Reserve Price Setting:** Sellers can set a reserve price to ensure their item reaches a minimum value.
- **Buy Now Feature:** Users have the option to include a "Buy Now" feature for instant sales.
- **Bid Increase Control:** Set minimum and maximum bid increments to manage auction dynamics.
- **Auction Filters:** Use the filters module to display only auction listings, simplifying searches.
- **Auction Icon:** A special icon indicates auction adverts in the list.
- **Auction Timer/Countdown:** Display an auction timer/countdown to create urgency.

Customize Your Classified Ad Software

Optimize your classified ads website's performance by integrating robust auction capabilities. Our advanced classifieds software empowers you to set up and manage auctions, providing users with dynamic bidding opportunities. Customize auction durations, starting prices, and bid increments to meet specific market requirements. Improve user engagement with live bidding features and automated notifications. Seamless auction integration helps broaden your website's reach and maximize revenue potential.

- Select the number of columns to display in the category view
- Determine the column count for the blog view
- Customize the columns shown in the table view
- Toggle tooltip visibility
- Specify which advertisement details to showcase
- Tailor units - whether it's pieces, sets, pairs, or square meters
- Varied display alternatives (intelligent table/list, blog/grid)

Advertiser and User Panel Functions in Classified Software

Each user or advertiser can access a personal panel that allows them to:

- Profile editing (including avatar, custom fields, and location)

- Ad management

- Promotion of ads to the top

We use cookies to enhance your browsing experience, serve personalized ads or content, and analyze our traffic. We reserve the right to remove or block ads that do not comply with our terms of service.

By clicking "Accept All", you consent to our use of cookies. [Privacy Policy](#)

- Ad renewal

- Ad deletion

- Ad Editing

- Viewing favorite ads (wish list)

- Managing "Saved searches" (also known as search alerts)
- Location setting - activating this displays the map with the user's location in the profile.

Statistics and Analytics

With analytics add-ons for DJ-Classifieds, you can track the performance of your classified ads site. Additionally, you can allow your users (advertisers) to monitor their results as well. You can also let all users see how a particular advert is performing.

Three free solutions:

- **Administrator Analytics module:** This module allows you to track key metrics in your backend, including top advertisers, income, auctions, and more. You can filter data by time to obtain precise insights.
- **Item/Advert Statistics module:** This module displays the performance of individual adverts over time, distinguishing between new and recurring visits.
- **Global Statistics module:** This module provides an overview of site-wide metrics.

Streamline Your Backend Management

Our Joomla classifieds software empowers administrators to seamlessly manage all aspects of advertisement handling from the admin panel. Our solution allows you to have complete control over your classified ads website. You can add and edit adverts, manage promotions, and adjust durations effortlessly. Take charge of user management, payments, email templates, and display statistics to ensure optimal performance and organization.

Optimize Your Listings with DJ-Classifieds' SEO Settings

Maximize the visibility of your ads by leveraging the comprehensive SEO options offered by DJ-Classifieds. With the ability to build your link structure, manipulate links, choose ID separators and positions, customize element names, and control how search engine bots interact with your pages, you have the power to ensure that your listings stand out and attract more visitors.

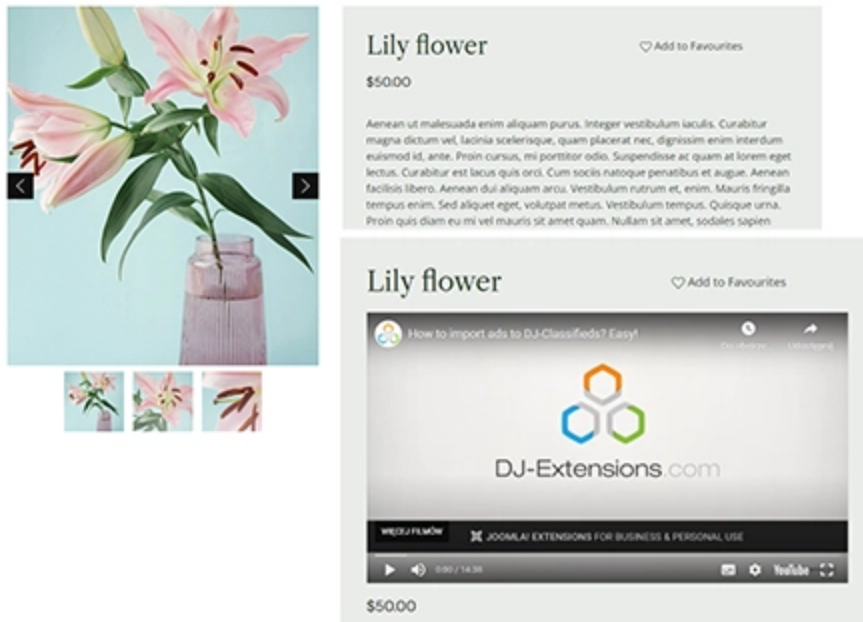

- It has an advanced search/filter module for enhanced user experience.
- Categories module to efficiently organize listings.
- Maps module for location visualization.
- User menu module for seamless navigation.
- Items module enabling diverse advertisement display options.
- User menu customization for tailored user experiences.
- Regions/locations management for targeted outreach.
- Comprehensive statistics tracking for informed decision-making.

Enhance Your Listings with Videos & Images

DJ-Classifieds seamlessly integrates multimedia functionality, allowing users to enhance their classified ads with images and videos. This feature offers numerous benefits for both buyers and sellers, enriching the browsing experience and increasing engagement.

We value your privacy

We use cookies to enhance your browsing experience, serve personalized ads or content, and analyze our traffic. By clicking "Accept All", you consent to our use of cookies. [Privacy Policy](#)

Key features include:

- **Image and Video Integration:** Users can easily add images and videos from popular platforms like YouTube or Vimeo to their classified ads. This enhances visual appeal and attracts more attention.
- **Upload Management:** Easily limit the number and size of uploaded images, ensuring optimal performance and efficient use of hosting resources.
- **Image Editing:** Take advantage of built-in tools to edit images both before and after uploading, ensuring they meet your desired specifications.
- **Search Optimization:** Enable users to search for ads with videos and images, improving searchability and user experience.
- **Watermarking:** Protect your images with watermarks to prevent unauthorized use and enhance brand recognition.
- **Image Optimization:** Optimize and resize images upon upload to minimize storage space usage and maintain optimal site performance.

Custom Storage Paths: Set custom paths to store advert images, offering flexibility and organization to suit your needs.

Enhance DJ-Classifieds with Apps

DJ-Classifieds Apps are powerful add-ons that extend the capabilities of DJ-Classifieds, making it even smarter and more versatile. These apps, often in the form of plugins, introduce new features and functionalities to the platform upon installation.

- Subscription Plans
- Search Alerts
- AJAX
- Multi Categories
- Bad Words
- Offers
- Attachments
- Alta User Points
- Ghost Ads
- Internal Messaging
- Coupons
- Invoices

Explore Advanced Features

- **Auto Post to Facebook:** Post adverts to Facebook, expanding your reach and visibility.
- **Text Overrides:** Easily modify any text through overrides, allowing for seamless customization and localization.
We use cookies to enhance your browsing experience, serve personalized ads or content, and analyze our traffic. By clicking "Accept All", you consent to our use of cookies. [Privacy Policy](#)
- **Developer-Friendly:** Built with MVC architecture and comprehensive documentation, making it easy for developers to create custom themes and payment plugins.
- **Custom Category Icons on Google Maps:** Assign custom icons for categories on Google Maps, improving visual clarity and user experience.
- **Compatible with Baidu and Yandex Maps:** Works seamlessly with Baidu and Yandex maps, catering to global audiences and expanding geographical coverage.

- **GDPR Compliance:** GDPR ready with consents and GDPR component integration, ensuring compliance with data protection regulations.
- **Buy Now Feature:** Enable users to make instant purchases with the buy now feature, streamlining the transaction process.
- **RSS Feed:** Provide an RSS feed for users to stay updated on new listings, improving user engagement and driving traffic.
- **Watermarks:** Protect images with watermarks to prevent unauthorized use and enhance branding.
- **Labels (Tags):** Assign labels or tags to ads for better organization and searchability.
- **Add to Favorites:** Allow users to create wishlists by adding ads to favorites, enhancing user engagement and retention.
- **Date and Time Settings:** Customize date and time formats to suit your preferences and localization requirements.
- **Multiple Currencies:** Support for multiple currencies, catering to international audiences and facilitating global transactions.

Why should you choose DJ-Classifieds?

Despite having "classifieds" in its title, this extension serves a broader purpose beyond just classified ads. Our customers utilize it in diverse ways. With straightforward configuration options, you can deactivate unnecessary features.

DJ-Classifieds is a versatile tool for building websites where users can submit their items. Submissions can be free or paid, published instantly, or reviewed by administrators before being posted live. It integrates seamlessly into Joomla!, allowing easy creation of various websites. These include general advert portals, job listings, real estate services, and dating platforms. It also supports niche sites for motorcycles, cars, boats, and birds.

We value your privacy

Our Joomla! templates include custom styling for the extension. Additionally, we offer fixed-price customization or Time and Material-based integration services as needed. We use cookies to enhance your browsing experience, serve personalized ads or content, and analyze our traffic.

By clicking "Accept All", you consent to our use of

- Unlimited categories, locations, units, and custom fields cookies. [Privacy Policy](#)
- Flexible output options with modules, layouts, and plugins
- RTL and LTR languages support global access

- Integration with 12 payment gateways, with the option to add new ones
- Auctions and "Buy now" functionality for varied sales approaches
- Importer component for ads, categories, and locations from external feeds
- Multiple monetization methods for submissions, renewals, and extra features
- Option to create internal currency with the integrated points system
- Easily customizable and expandable architecture based on the MVC model
- Integrations with third-party services and additional apps
- Engage users with notifications via emails and messages
