Announcements

Redesigned App Launcher

★ Improvement

You can slide between the **redesigned (left)** and **legacy design (right)** below.

💡 TIP

For a full list of tickets and details on the redesign, see the dedicated section below.

Webhooks

★ Highly requested

Webhooks are now available for triggering actions on changed content outside of the CMS and much more. Automate your workflows. Read all about it in our [Webhooks guide](#).

SSO Module

Cookie Consent

We use cookies to enhance your browsing experience, serve personalized content or ads, and analyze our traffic. By clicking “Accept”, you consent to our use of cookies.

[Cookie Policy](#) [Privacy Policy](#)

- [SSO 2.0.5](#) was released on **July 29, 2022**.

New App Launcher

Ready to navigate the Magnolia environment more easily? The [new layout](#) and groupings, Favorite Apps, and Favorites Switcher all facilitate an improved authoring experience. Organize your authoring workspace as you need it and update the configuration at your convenience to assist in leveraging the best digital experience for your customers. Read all about it in our [App Launcher documentation](#).

 **Expand for ticket info +**

Bug fixes

- [MGNLUI-7243](#)  Server side validation for RichTextField on Vaadin 7 (old) UI framework
- [MGNLUI-7256](#)  Strikethrough can't be used in richTextField

Miscellaneous

- [MGNLTOMCAT-25](#)  Update to Tomcat 9.0.65

Others

HTML rendering more secure

To prevent [XSS exploits](#)

[TASKS-11](#)  (restricted access)

Known issues

If you are upgrading from a previous version, please check the [Known issues](#) page.
