- **Updated**: Compatibility: Elementor and Elementor Pro versions.

= 1.8.3 - OCT 06 2026 =

- **Added**: Compatibility: WooCommerce 11.2 version.
- **Added**: Compatibility: OceanWP 4.2.7+: Improved AJAX Add to Cart.
- **Improved**: Compatibility: PHP 8+: Remote API requests.
- **Improved**: Modules: Pixel Tracker: Add to Cart event tracking for successful and rejected WooCommerce AJAX requests, including product variations and quantities.
- **Updated**: Template: ...wc-templates/cart/cart-page.php
- **Updated**: Template: ...wc-templates/checkout/review-order.php
- **Updated**: Template: ...wc-templates/checkout/thankyou.php
- **Updated**: Compatibility: Elementor 4.3.4
- **Updated**: Compatibility: Elementor Pro 4.3.1
- **Fixed**: Modules: Pixel Tracker: Price and monetary value precision across supported tracking integrations.
- **Fixed**: Modules: Pixel Tracker: eCommerce event data and prevent duplicate or incorrectly triggered events.

= 1.8.2 - SEP 15 2026 =

- **Improved**: Modules: Popup Builder: Custom Templates: Gutenberg template processing and rendering.
- **Improved**: Modules: Popup Builder: Popup preview rendering.
- **Improved**: Modules: Woo Popup: Custom Templates: Gutenberg template processing and rendering.
- **Improved**: Modules: Product Tabs: Custom Templates: Gutenberg template processing and rendering.
- **Updated**: Languages: Translation: Brazilian Portuguese.
- **Fixed**: Elementor: Widgets: Accordion: Empty JS file generated during plugin build.
- **Fixed**: Elementor: Widgets: Blog Grid: Empty JS file generated during plugin build.
- **Fixed**: Elementor: Widgets: Navbar: Empty JS file generated during plugin build.
- **Fixed**: Elementor: Widgets: Newsletter: Empty JS file generated during plugin build.
- **Fixed**: Elementor: Widgets: Off Canvas: Empty JS file generated during plugin build.
- **Fixed**: Elementor: Widgets: Pricing Table: Empty JS file generated during plugin build.
- **Fixed**: Elementor: Widgets: Woo Ajax Search: Empty JS file generated during plugin build.
- **Fixed**: Elementor: Widgets: Woo Cart Icon: Empty JS file generated during plugin build.
- **Fixed**: Modules: Popup Builder: Custom Popup: Popup container styles incorrectly applied to the page displaying the popup.

= 1.8.1 - SEP 08 2026 =

- **Fixed**: Modules: Product Comparison: Incorrect conditional logic caused the 'Compare' button to be displayed on single product pages even when module was disabled.
- **Fixed**: Potential vulnerability patched.

= 1.8.0 - AUG 18 2026 =

- **NEW**: Module: Previously Viewed Products: Track and display products your visitors have previously viewed. Use [oec_previously_viewed] shortcode to display the previously viewed products anywhere on your website, or use the 'Woo Product: Previously Viewed' widget for Elementor-designed pages.
- **NEW**: Module: Product Comparison: Compare products by adding them to the list. Use [oec_product_comparison] shortcode to assign a page for comparison.

- **Added**: Template Builder: Clear separation between global product custom templates, and individual single product custom templates.
- **Added**: Compatibility: Elementor: Widgets: Cart: Widget incompatible with the 'Display Cart When Product Added' option.
- **Added**: Compatibility: WordPress 7.1.
- **Added**: Compatibility: WooCommerce: Cache Product Object feature.
- **Added**: Compatibility: WooCommerce: Display a warning message when Woo's experimental Variation Gallery feature is enabled to avoid conflict with the Variation Gallery module.
- **Improved**: Customizer: Panels and options rendering logic for improved Customizer speed.
- **Fixed**: Product Swatches: Swatches styling applied via the Customizer not loaded on the front unless Elementor is active.
- **Fixed**: Product Swatches: Using the 'Clear' button causes variation swatches to disappear.
- **Fixed**: Customizer: Suggest Price module: 'get_products_list()' function loaded outside of Customizer preview causing delay in frontend page rendering.
- **Fixed**: Template Builder: Horizontal Filter: Locked price range.
- **Fixed**: Template Builder: Vertical Filter: Locked price range.
- **Fixed**: Wishlist: Displaying the icon in custom header triggers error warning that the product could not be added to the wishlist.
- **Fixed**: Popup Builder: Header and Top Bar displayed inside the popup building environment that uses Elementor.

= 1.7.0 - JUN 01 2026 =

- **NEW**: Template Builder: 'Woo Product: Image Grid' widget: Display single product image galleries in a grid. Supports variable product images, the new Variation Gallery, and custom badges associated with the 'Product Badges Manager' module.
- **NEW**: Template Builder: 'Woo Product: Image Slider' widget: Display single product image galleries as a slider.
- **NEW**: Template Builder: 'Woo Product: Price' widget: Display last-known price for out-of-stock single products.

- **NEW**: Template Builder: 'Woo Product: Last Purchase' widget: Support for the new 'Last Purchase' module.
- **NEW**: Template Builder: 'Woo Checkout: Multi Step' widget: Build a custom multi-step checkout for your store.
- **NEW**: Elementor Widgets: General: 'Store Features' widget: Build attention-grabbing cards to represent your store or company features.
- **NEW**: Elementor Widgets: General: 'Offer Banner' widget: Highlight offers with a configurable promo banner.
- **NEW**: Module: Variation Gallery: Create a gallery for each of your product's variations.
- **NEW**: Module: Text Customizer: Customize default WooCommerce labels with ease from a single central panel.
- **NEW**: Module: Shop Closure Manager: Display and customize a site notification and store functionality when your business is on a vacation: Supports multiple schedules, store shopping functionality, the notice position on the website, dynamic messages, shop pages redirect, and more.
- **NEW**: Module: Last Purchase: Encourage customers to re-purchase their favorite products by enabling them to quickly view their purchase history and access previous orders. Displayed only to logged-in repeating customers.
- **NEW**: Visual Customizer: Customize all visual options from a central place with a live preview. Automatically appears in the admin menu (eCommerce OTB > Visual Customizer) when a module that requires visual customization is enabled. Currently supports: Product Purchase Notifier, Consent Banner, Coupon Manager, and Purchase Stats modules.
- **Added**: Popup Builder: Conditional visibility support 'Show popup to': Enables you to choose to whom custom popups will be displayed to (everyone, logged-in users only, or logged-out users only).
- **Added**: Template Builder: 'Woo Shop: Archive' widget: Toggle option 'Show Last Purchase Date' to support the new 'Last Purchase' module.
- **Updated**: Template: ocean-ecommerce/wc-templates/cart/cart-page.php
- **Updated**: Compatibility: Cart page template version number.
- **Updated**: Compatibility: Elementor and Elementor Pro version numbers.
- **Updated**: Compatibility: WooCommerce version number.
- **Updated**: Compatibility: WordPress version number.

= 1.6.3 - MAR 11 2026 =

- **NEW**: Template Builder: Support to create unique single product templates for various products.
- **Added**: Product Swatches: Archives: Display variation image if variation selected.
- **Added**: Permalink Manager: Enhance get_primary_term to return the deepest product category term (matching WooCommerce 10.5+ permalink logic).
- **Added**: Archives: Toolbar: Shop Result Count: 'ALL' option: Support Max Cap option for custom archive templates to limit the number of products displayed.
- **Added**: Popup Builder: Custom Popups: Gutenberg: Support popup content created only using a shortcode.
- **Added**: Template Builder: 'Woo Shop: Archive' Widget: Support handling of regular WooCommerce filters.
- **Fixed**: Template Builder: Archives: 'Woo Shop: Archive' Widget: Individual widget settings for Columns and Rows are ignored.
- **Fixed**: Archives: Product grid layout missalignment when product number per row is less than the assigned columns number.
- **Fixed**: Uncaught Error: Call to a member function get_id() on null in .../plugins/ocean-ecommerce/widgets/product/woo-product-categories.php on line 375

= 1.6.2 - DEC 08 2025 =

- **NEW**: Template Builder: Loop Product Tags widget for Elementor.
- **NEW**: Template Builder: Loop Product SKU widget for Elementor.
- **NEW**: Template Builder: Loop Product Stock widget for Elementor.
- **NEW**: Template Builder: Loop Product Custom Stock widget for Elementor.
- **NEW**: Template Builder: Loop Product Stock Visual Progress widget for Elementor: apply custom stock numbers to create urgency via individual Product Data Settings > Inventory > Initial Number In Stock (does not track actual product stock).
- **NEW**: Template Builder: Loop Product Brands widget for Elementor.
- **Added**: Template Builder: Loop Product Image and Gallery widget: options to control product thumbnails directly from the widget instead of relying on Customizer settings.

- **Added**: Module: Product Purchase Notifier: Option to display more products for all order types.
- **Added**: Product Variation Swatches: Archive pages: display Add to Cart button when a variation is selected instead of displaying a button to view the product page.
- **Added**: Compatibility: WooCommerce 10.3.+ version.
- **Updated**: Template: .../wc-templates/cart/cart-page.php
- **Updated**: Template: .../wc-templates/single-product/tabs/tabs.php
- **Fixed**: Popup Builder: Popups won't load on the Shop page if this page is among the Select Pages list.
- **Fixed**: Image gallery not displayed when the Shop page template edited in Elementor and when the Product Display Options (Customizer) are set to Gallery Slider.

= 1.6.1 - OCT 06 2025 =

- **NEW**: Module: Purchase Stats: Display how many people buy the product on a single product page.
- **NEW**: Custom Template Builder: Woo Product: Purchase Stats Elementor widget for the Single Product page template.
- **Added**: Waitlist: Option to include a link to the 'You are on the waitlist' button.
- **Added**: Tabs Manager: Option to display single product tabs as accordion via Display Mode in Product Tabs Manager module settings.
- **Improved**: Permalink Manager: Redirection functionality if product and product image have the exact same name.
- **Improved**: Custom Template Builder: Woo Shop: Archive widget: Multiple options and improvements regarding the toolbar and its elements functionality.
- **Improved**: Pixel Tracker: Google Tag Manager: GA4 support to track more events.
- **Improved**: Waitlist: Variable Products: Display Add to Waitlist option directly on the page instead of triggering a modal when the 'out of stock' variation is clicked.
- **Improved**: Product Badges Manager: Link Badge: Additional checks if necessary fields are left empty.
- **Improved**: UI/UX: Dashboard: Highlight active modules in the main panel.
- **Improved**: UI/UX: Dashboard: Widgets: Elementor Widgets list. Link to preview Elementor's Element Manager for additional widget management.
- **Improved**: UI/UX: Dashboard: Widgets: Tabs to easily preview widgets by groups.

- **Updated**: Compatibility: Elementor and Elementor Pro version numbers.
- **Updated**: Compatibility: WooCommerce version number.
- **Updated**: Compatibility: WordPress version number.
- **Fixed**: Product Purchase Notifier: Translations: String 'purchased' not translatable.
- **Fixed**: Product Purchase Notifier: Responsiveness: Long titles get cut off on small screen sizes.
- **Fixed**: Pixel Tracker: Google Tag Manager: 'add_to_cart' event doesn't trigger proper events in Google Analytics.
- **Fixed**: Product Badges Manager: Custom Badge: Extremely rare issue where the custom badge appears on single product pages that were not assigned that specific badge.
- **Fixed**: Product Badges Manager: Deleted badges still being displayed on the frontend.
- **Fixed**: Compatibility: HTML: .../wp-content/plugins/ocean-ecommerce/ocean-ecommerce.php on line 518 opening div tag used instead of closing div tag.
- **Fixed**: Compatibility: PHP: Warning: Undefined variable $clink in .../wp-content/plugins/ocean-ecommerce/widgets/shop/woo-shop-vertical-filter.php on line 828; including all other warnings related to the Woo Shop: Vertical Filter widget usage.

= 1.6.0 - APR 17 2025 =

- **NEW**: Widget: Product Loop Builder.
- **NEW**: Widget: Product Carousel Loop Builder.
- **Updated**: Compatibility: Elementor and Elementor Pro version numbers.
- **Updated**: Compatibility: WooCommerce version number.
- **Updated**: Compatibility: WordPress version number.
- **Fixed**: All slider widgets: Overflow issue caused by Elementor removing new Swiper as experimental version and added it as a regular feature instead. Previously, the Swiper script used a check for experimental features enabled.

= 1.5.5 - FEB 27 2025 =

- **Updated**: Brands: Renamed Brands submenu to OTB Brands to avoid confusion with recently added Woo Brands option.

- **Updated**: Template: wc-templates/form-login.php (version number for compatibility with WooCommerce 9.7).

= 1.5.4 - JAN 27 2025 =

- **Added**: Compatibility: OceanWP: WooCommerce: Checkout: New Multistep checkout steps and validation support.
- **Added**: Compatibility: OceanWP: Pagination: Load More pagination support.
- **Updated**: Language: .pot file.
