TBEA, committed to advancing the "Dual Carbon" goals(carbon peaking and carbon neutrality), pursues high-quality development as its strategic core.

We drive progress through cutting-edge energy technology innovation, ensure reliability with clean and low-carbon energy supply, and leverage digitalization, intelligence, and informatization as foundational enablers.

With unwavering resolve, we advance green development, jointly build the Belt and Road Initiative to the highest standards, and partner globally to foster the sustainable development of human society.
