Working Time Account

Record working hours, generate and send reports (PDF, CSV and ICS)

Working time account is used to record your personal working hours and time off and to prepare them clearly.

What can the working time account do?

- Record working hours
- Calculate overtime
- Document absences (sick, vacation, etc.)
- Record
any additional values (work locations, notes, expenses, travel times, etc.) and include them in the calculation of earnings and hours - Manage vacation days - Various overviews (year, month, week and day). Manage vacation days
- Display various overviews (year, month, week and day) with working time calculation in the app
- Generate configurable reports as PDF, CSV and iCal files and forward them to printer, mail or messenger apps
- Manage multiple workstations, projects or clients
- Create data backups (also autom. two shift models (alternating shift and partial shift)
- several working time models (rolling week, monthly hours, 5-day week, 6-day week, x-day week)
- stamp hours with NFC
- Import public holidays from .ics files and enter them automatically in empty days

The app includes a manual as a PDF file, which explains all the app's functions and provides an introduction to working time calculation.

What the app can't do

- display advertising

- display cat videos or pictures
- pass on your data to third parties
- place orders online
- save the world

Thanks to

- everyone who helped me with bug reports, suggestions and criticism
- Freepik.com & dr. Web for the Human Pictos
