F-Droid

English

Ghost Commander

Dual-panel file manager

Dual panel file manager, like Norton Commander, Midnight Commander or Total
Commander.

Notable features:

* Ability to copy and move files between its two panels
* Create or extract (unzip) ZIP archives
* Transfer files via FTP/SFTP/SMB
* Full-featured app manager able to access extra info and share apks

Requires root: No, but if provided you can remount filesystems and mess around
with system files.

Note: Due to missing deps, SFTP server connections authenticated with Kerberos might fail on certain newer devices.

Versions

Although APK downloads are available below to give you the choice, you should be aware that by installing that way you will not receive update notifications and it's a less secure way to download. We recommend that you install the F-Droid client and use that.

DOWNLOAD F-DROID

Version 1.64.2b4 (479) suggested Added on Dec 15, 2025

This version requires Android 5.0 or newer.

It is built and signed by F-Droid, and guaranteed to correspond to this source tarball.

▼ **Permissions**

- **android.permission.ACCESS_SUPERUSER**
- **view Wi-Fi connections**
  Allows the app to view information about Wi-Fi networking, such as whether Wi-Fi is enabled and name of connected Wi-Fi devices.
- **run foreground service**
  Allows the app to make use of foreground services.
- **run foreground service with the type "dataSync"**
  Allows the app to make use of foreground services with the type "dataSync"
- **have full network access**
  Allows the app to create network sockets and use custom network protocols. The browser and other applications provide means to send data to the internet, so this permission is not required to send data to the internet.
- **android.permission.MANAGE_EXTERNAL_STORAGE**
- **show notifications**
  Allows the app to show notifications
- **query all packages**
  Allows an app to see all installed packages.
- **read the contents of your shared storage**
  Allows the app to read the contents of your shared storage.

- **request delete packages**
  Allows an application to request deletion of packages.
- **request install packages**
  Allows an application to request installation of packages.
- **android.permission.USE_CREDENTIALS**
- **control vibration**
  Allows the app to control the vibrator.
- **prevent phone from sleeping**
  Allows the app to prevent the phone from going to sleep.
- **modify or delete the contents of your shared storage**
  Allows the app to write the contents of your shared storage.
- **install shortcuts**
  Allows an application to add Homescreen shortcuts without user intervention.
