F-Droid

ShoppingList

A Shopping List with reminders, price tracking and list sharing.

A privacy-focused, offline-first shopping list application built with modern Android architecture. No internet connection required, no tracking, no ads - just your shopping lists stored securely on your device.

CORE FEATURES

• Multiple Shopping Lists - Organize items by store, occasion, or category
• Smart Item Management - Add, edit, and reorder items with drag-and-drop
• Purchase Tracking - Check off items as you shop with visual indicators
• Quantity & Pricing - Track quantities and prices with automatic total calculation
• Item Reminders - Set date/time reminders for shopping trips
• List Sharing - Export and share lists as .shoppinglist files
• Quick Rename - Double-tap any list to rename it instantly
• Offline Storage - All data stored locally using Room database

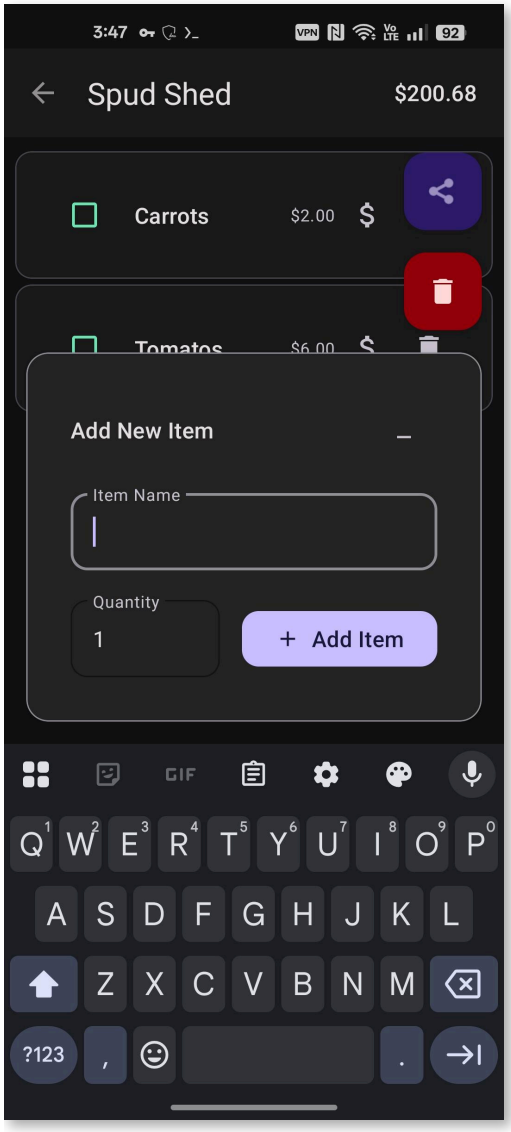

This application is perfect for anyone who values privacy, offline functionality, and straightforward design. No unnecessary features, no bloat - just a reliable shopping list that works exactly as expected.

Versions

Although APK downloads are available below to give you the choice, you should be aware that by installing that way you will not receive update notifications and it's a less secure way to download. We recommend that you install the F-Droid client and use that.

DOWNLOAD F-DROID

Version 11.0 (11) suggested Added on Nov 11, 2025

This version requires Android 7.0 or newer.

It is built and signed by the original developer, and guaranteed to correspond to this source tarball.

▼ Permissions

- **show notifications**
  Allows the app to show notifications
- **run at startup**
  Allows the app to have itself started as soon as the system has finished booting. This can make it take longer to start the phone and allow the app to slow down the overall phone by always running.
- **Schedule precisely timed actions**
  This app can schedule work to happen at a desired time in the future. This also means that the app can run when you're not actively using the device.
- **Schedule alarms or event reminders**
  This app can schedule actions like alarms and reminders to notify you at a desired time in the future.
- **prevent phone from sleeping**
  Allows the app to prevent the phone from going to sleep.
- **com.wbpxre150.shoppinglist.DYNAMIC_RECEIVER_NOT_EXPORTED_PERMISSION**
