Groups & permissions

Assign permissions to groups, control member access across categories, and keep things tidy with built-in moderation and flagging.

Styling & themes

Customise via admin settings, install themes, or write custom CSS that propagates across your entire forum automatically.

Powerful editor

Choose from lightweight Markdown editors to full WYSIWYG — Flarum supports both, meeting users wherever they are comfortable.

Notify & engage

In-browser notifications, email digests, and real-time websocket extensions keep your community active and coming back.

Extend endlessly

Hundreds of community-built extensions are available. Build your own, or commission custom development — the API makes it possible.

Secure by default

Built on Laravel with security best practices throughout. Regular core updates keep your community protected.
