**Fluent Forms Support ROCKS**

@dimitriosn

I've been using Fluentforms for a while now, and I must say it has made my life so much easier. Has everything ready to use BUT.. the best of all is SUPPORT. The support team behind this plugin is top-notch. Support is so EXCELLENT. It's better than you to have 2-3 additional persons in your office!

**Works brilliantly!**

@pbchambers26

After having some problems with configuring Microsoft Exchange it has all come good. This is the best Form maker I have used! So much more in the free version than other plugins!

**Best yet, simple**

@zilliongold

I use fluent in all my projects. It is simply to best and easy to configure with seamless email delivery and notification system that work very well with Gmail and other email providers. If there is a rating above 5 ⭐, I would rate it higher.
