

from spam comments & brute force attacks

Captcha Verification

Use Google reCaptcha v2, v3, hCaptcha that is GDPR compatible, Cloudflare Turnstile, fun Icon Captcha or a simple built-in Captcha that does not require API keys.

Cloud Blacklists

Maintain blacklists & whitelists across all websites you manage with just one click of a button.

Firewall

Lightweight, server-level protection against malicious requests, bad bots, automated attacks, spam, and many other threats.

Custom Login Page & URL

If they don't know where your login page is, they can't attack it! Change the login page URL and keep it private. Also, change templates, colors, and make your page unique.
