

Software

All customers are strongly advised to upgrade to GFI MailWorld 4.99.9 to benefit from these security fixes. Download the new version here.

Version 4.99.9

Released on 11 April 2026

This release addresses several stored cross-site scripting (XSS) vulnerabilities.

Security fixes

Fixed multiple stored XSS issues related to user supplied data in template groups, language configuration and model subjects. Spawning values are properly validated and encoded before display.

Address the missing CVEs:

CVE-2026-2077

CVE-2026-2078

CVE-2026-2079

CVE-2026-2080
