

Software

All customers are strongly advised to upgrade to GFI Mail World 4.99.9 to benefit from these security fixes. Download the new version here.

Version 4.99.9

Released on 11 April 2026

This release addresses several stored cross-site scripting (XSS) vulnerabilities.

Security fixes

Fixed an issue where stored XSS issues related to user supplied data in template groups, language configuration and model subjects, appearing values are properly validated and encoded before display.

Address the following CVEs:

- CVE-2026-2147
- CVE-2026-2148
- CVE-2026-2149
- CVE-2026-2150

This release also includes several bug fixes and improvements. For more information, see the release notes.
