A race condition in the one-pass compression functions of...

High severity Unreviewed Published on May 24, 2022 to the GitHub Advisory Database • Updated on Apr 4, 2024

Package

No package listed— Suggest a package

Affected versions

Unknown

Patched versions

Unknown

Description

A race condition in the one-pass compression functions of Zstandard prior to version 1.3.8 could allow an attacker to write bytes out of bounds if an output buffer smaller than the recommended size was used.
