

Cookie and Proxy-Authorization headers leaked on cross-origin redirect

Low Dreamsorcerer published **GHSA-966j-vmvw-g2g9** 20 hours ago

Package

 aiohttp (pip)

Affected versions

<= 3.13.3

Patched versions

3.13.4

Description

Summary

When following redirects to a different origin, aiohttp drops the Authorization header, but retains the Cookie and Proxy-Authorization headers.

Impact

The Cookie and Proxy-Authorizations headers could contain sensitive information which may be leaked to an unintended party after following a redirect.

Patch: [5351c98](#)

Severity

Low

CVE ID

CVE-2026-34518

Weaknesses

▶ CWE-200
