Was generative AI tooling used to co-author this PR?

Yes (please specify the tool below)

- Read the [Pull Request Guidelines](#) for more information. Note: commit author/co-author name and email in commits become permanently public when merged.
- For fundamental code changes, an Airflow Improvement Proposal (AIP) is needed.
- When adding dependency, check compliance with the [ASF 3rd Party License Policy](#).
- For significant user-facing changes create newsfragment: `{pr_number}.significant.rst`, in [airflow-core/newsfragments](#). You can add this file in a follow-up commit after the PR is created so you know the PR number.

Hi maintainer, this PR was merged without a milestone set. We've automatically set the milestone to [Airflow 3.1.9](#) based on: backport label targeting v3-1-test If this milestone is not correct, please update it to the appropriate milestone.

This comment was generated by [Milestone Tag Assistant](#).

### Backport successfully created: v3-1-test

Note: As of [Merging PRs targeted for Airflow 3.X](#) the committer who merges the PR is responsible for backporting the PRs that are bug fixes (generally speaking) to the maintenance branches.

In matter of doubt please ask in [#release-management](#) Slack channel.
