Fix: add check for xcom permission when result is specified for DagRun wait endpoint #64415

Merged[pierrejeambrun](#) merged 1 commit into [apache:main](#) from[sjyangkevin:fix-dag-run-wait-endp...](#)  last week[Conversation](#)[Commits](#) 1[Checks](#)[Files changed](#)[sjyangkevin](#) commented [2 weeks ago](#) • edited ▾Contributor

Why

XCom access is governed by `RESOURCE_XCOM` permissions but the experiment [Wait API endpoint](#) returns XCom results with only DagRun read permission. Enhance the permission check.

Was generative AI tooling used to co-author this PR?

 Yes (please specify the tool below)

Generated-by: [Claude Code Opus 4.6] following [the guidelines](#)

- Read the [Pull Request Guidelines](#) for more information. Note: commit author/co-author name and email in commits become permanently public when merged.
- For fundamental code changes, an Airflow Improvement Proposal ([AIP](#)) is needed.
- When adding dependency, check compliance with the [ASF 3rd Party License Policy](#).
- For significant user-facing changes create newsfragment: `{pr_number}.significant.rst`, in [airflow-core/newsfragments](#). You can add this file in a follow-up commit after the PR is created so you know the PR number.
