# Command Injection in MCP Server mcp-code-review-server due to exec() with unsanitized specificFiles #4

Open

123mutouren321414 opened on Mar 16

Hi [@crazyrabbitLTC](#),

I recently found a possible command injection vulnerability in this project.

For responsible disclosure, I am reporting it here before public disclosure.

Please take a look when convenient. Detailed information and PoC are provided as follows:

I am happy to help with further verification or fixing if needed.

Thank you for your time.
