---

## Features

- **Open Source & Self-Hosted:** Full control, privacy, and flexibility.
- **Multiple WebRTC Platforms:** SFU, P2P, C2C, Broadcasting, Room Scheduling, and more.
- **Scalable & Production-Ready:** Used by businesses worldwide.

- **Customizable:** Developer-friendly APIs and easy integration.
- **Active Community:** Continuous updates and support.

---

## Quick Start

Get up and running in minutes. Head to the [MiroTalk Documentation](#) for installation guides, API references, and deployment options.

---

## Core Projects

Explore our production-ready WebRTC platforms:

Project	Description	Live Demo
<b>MiroTalk SFU</b>	Scalable video conferencing (Selective Forwarding Unit)	<a href="https://sfu.mirotalk.com">sfu.mirotalk.com</a>
<b>MiroTalk P2P</b>	Lightweight peer-to-peer video calls	<a href="https://p2p.mirotalk.com">p2p.mirotalk.com</a>
<b>MiroTalk C2C</b>	Cam-to-Cam WebRTC solution	<a href="https://c2c.mirotalk.com">c2c.mirotalk.com</a>
<b>MiroTalk BRO</b>	Broadcasting real-time communication	<a href="https://bro.mirotalk.com">bro.mirotalk.com</a>
<b>MiroTalk WEB</b>	WebRTC room scheduler	<a href="https://webrtc.mirotalk.com">webrtc.mirotalk.com</a>
<b>MiroTalk CME</b>	Click-to-call for instant communication	<a href="https://cme.mirotalk.com">cme.mirotalk.com</a>
<b>MiroTalk ADM</b>	Admin & monitoring tools	<a href="#">GitHub</a>

**MiroTalk WEB demo credentials:** User: `demo` · Email: `demo@gmail.com` · Password: `Demo@123`

All projects are **self-hosted, customizable, and developer-friendly**.

---

## Support MiroTalk (Become a Sponsor)

MiroTalk is actively maintained and improved by the community.

By sponsoring, you help:

-  Accelerate new features
-  Improve security and stability
-  Maintain long-term open-source sustainability

 **Support the project here:**

<https://github.com/sponsors/miroslavpejic85>

Every contribution makes a real impact. Thank you for supporting open source!

---

## Commercial License & Professional Use

---

MiroTalk is open source, but **commercial or closed-source usage requires a paid license**.

If you are:

- Building a **commercial product**
- Using MiroTalk in a **private or proprietary system**
- Deploying for **enterprise or client projects**

👉 **Purchase a Regular or Extended (commercial) license on CodeCanyon:**

<https://codecanyon.net/user/miroslavpejic85/portfolio>

A license ensures:

-  Legal compliance
  -  Long-term usage rights
  -  Support the continued development of MiroTalk
- 

## Get in Touch

---

Have questions, need help, or want to collaborate?

-  **Email:** [miroslav.pejic.85@gmail.com](mailto:miroslav.pejic.85@gmail.com)
  -  **Discord:** <https://discord.gg/rgGYfeYW3N>
- 

★ **If MiroTalk helps your project, consider starring the repositories and sharing them with others!**
