-

[Features](#)

- **Open Source & Self-Hosted:** Full control, privacy, and flexibility.
- **Multiple WebRTC Platforms:** SFU, P2P, C2C, Broadcasting, Room Scheduling, and more.
- **Scalable & Production-Ready:** Used by businesses worldwide.

- **Customizable:** Developer-friendly APIs and easy integration.
- **Active Community:** Continuous updates and support.

Quick Start

Get up and running in minutes. Head to the [MiroTalk Documentation](#) for installation guides, API references, and deployment options.

Core Projects

Explore our production-ready WebRTC platforms:

Project	Description	About	Live Demo
MiroTalk SFU	Scalable video conferencing (Selective Forwarding Unit)	Docs	sfu.mirotalk.com
MiroTalk P2P	Lightweight peer-to-peer video calls	Docs	p2p.mirotalk.com
MiroTalk C2C	Cam-to-Cam WebRTC solution	Docs	c2c.mirotalk.com
MiroTalk BRO	Broadcasting real-time communication	Docs	bro.mirotalk.com
MiroTalk WEB	WebRTC room scheduler	Docs	webrtc.mirotalk.com
MiroTalk CME	Click-to-call for instant communication	Docs	cme.mirotalk.com
MiroTalk ADM	Admin & monitoring tools	Docs	GitHub

MiroTalk WEB demo credentials: User: `demo` · Email: `demo@gmail.com` · Password: `Demo@123`

All projects are **self-hosted, customizable, and developer-friendly**.

Support MiroTalk (Become a Sponsor)

MiroTalk is actively maintained and improved by the community.
By sponsoring, you help:

- 🚀 Accelerate new features
- 🛡️ Improve security and stability
- 🌱 Maintain long-term open-source sustainability

👉 **Support the project here:**

<https://github.com/sponsors/miroslavpejic85>

Every contribution makes a real impact. Thank you for supporting open source!

Commercial License & Professional Use

MiroTalk is open source, but **commercial or closed-source usage requires a paid license.**

If you are:

- Building a **commercial product**
- Using MiroTalk in a **private or proprietary system**
- Deploying for **enterprise or client projects**

👉 **Purchase a Regular or Extended (commercial) license on CodeCanyon:**

<https://codecanyon.net/user/miroslavpejic85/portfolio>

👉 **Or get the complete ecosystem in one bundle:**

[MiroTalk Ultimate Bundle](#)

A license ensures:

- ✅ Legal compliance
 - 🛡️ Long-term usage rights
 - 🙌 Support the continued development of MiroTalk
-

Get in Touch

Have questions, need help, or want to collaborate?

- ✉️ **Email:** miroslav.pejic.85@gmail.com
 - 💬 **Discord:** <https://discord.gg/rgGYfeYW3N>
-

★ **If MiroTalk helps your project, consider starring the repositories and sharing them with others!**

mirotalk Public

🚀 Self-hosted open-source WebRTC video conferencing platform built on peer-to-peer (P2P) architecture for fast, secure real-time communication with end-to-end privacy.

🟡 JavaScript ⭐ 4.5k 🍷 722

mirotalksfu Public

🏆 Self-hosted, open-source WebRTC video conferencing platform for real-time communication and collaboration. A modern alternative to Zoom, built on SFU architecture.

🟡 JavaScript ⭐ 3k 🍷 457
