Member

Summary

- add a shared authorization check for the Stripe webhook AJAX handlers
- require the existing PMPPro payment settings capability or manage_options before create/delete/rebuild actions
- add and send a nonce for the Stripe webhook admin AJAX requests

Testing

- php -l classes/gateways/class.pmprogateway_stripe.php
- php -l includes/scripts.php

Add auth checks to Stripe webhook AJAX handlers

Pull request overview

This PR hardens the Stripe webhook management actions in the admin by adding nonce-based CSRF protection and centralizing authorization checks for the related AJAX handlers.

Changes:

- Add a localized `stripe_webhook_nonce` to admin JS.
- Include the nonce in Stripe webhook create/delete/rebuild AJAX requests.
- Add a shared authorization/nonce validation helper in the Stripe gateway class and apply it to the webhook AJAX handlers.

Reviewed changes

Copilot reviewed 3 out of 3 changed files in this pull request and generated no comments.

File	Description
js/pmpro-admin.js	Sends a nonce with Stripe webhook create/delete/rebuild AJAX requests.
includes/scripts.php	Localizes a Stripe webhook nonce into the <code>pmpro</code> JS object for admin pages.
classes/gateways/class.pmprogateway_stripe.php	Adds centralized capability + nonce validation and enforces it in webhook AJAX handlers.
