GoSMTP

GoSMTP 1.2.4 Launched

Vardana Bhanot October 7, 2026

versions

We have launched GoSMTP version 1.2.4. This version fixes a security issue.

The change logs are as follows :-

- [Security Fix Pro] There was an issue related to Email Logs that has been fixed, reported by Rafie Muhammad - Awesome Motive, Inc [Wordfence]
- [Task] MCP adapter plugin now gets installed through the WordPress repo, and redundant code related to the old way of installing the MCP Adaptor has been removed.

GoSMTP is working to improve the plugin and help you deliver emails. If you have any suggestions or feedback, write to us at **support@gosmtp.net**

Regards,
GoSMTP Team
