

Public Dashboards time range restriction on annotations can be bypassed

Medium

Advisory ID:	CVE-2026-21722
Published:	2026-02-12
Product:	Grafana
CVSS Score:	5.3
CVSS Vector:	CVSS:3.1/AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N
Fixed Versions:	<9.3.0 >=11.6.10+security-01 <12.0.0 >=12.1.6+security-01 <12.2.0 >=12.2.4+security-01 <12.3.0 >=12.3.2+security-01

Summary

Public dashboards with annotations enabled did not limit their annotation timerange to the locked timerange of the public dashboard. This means one could read the entire history of annotations visible on the specific dashboard, even those outside the locked timerange.

This did not leak any annotations that would not otherwise be visible on the public dashboard.

This vulnerability was reported to us via our [bug bounty program](#) by [KhanMarshal](#).
