

## Stable Releases

Stable releases update rarely but have no serious bugs.

Download **iTerm2 3.7.7 (macOS 13+) (https://iterm2.com/downloads/stable/iTerm2-3_7_7.zip)**

This is the recommended build for most users. Built on November 3, 2026.

## Test Releases

*Test releases update many times a year and are occasionally unstable.*

Download **iTerm2 3.7.7beta2 (macOS 13+) (https://iterm2.com/downloads/beta/iTerm2-3_7_7beta2.zip)**

*This is the recommended beta build for most users. Built on October 27, 2026.*

## Nightly Builds

*A nightly build is made at midnight Pacific time on days where a change was committed. The change log may be seen on GitHub (https://github.com/gnachman/iTerm2/commits/master). Nightly builds sometimes have serious bugs.*

Download **Latest nightly build (/nightly/latest)**

*Older nightly builds may be found in the nightly build archives. (/downloads/nightly)*

*iTerm2 by George Nachman. Website by Matthew Freeman, George Nachman, and James A. Rosen.*

*Website updated and optimized by HexBrain (http://hexbrain.com)*
