Kaillera enables emulators to play on the Internet.

--

With Kaillera you can enjoy playing video games with others from all over the world. It consists of a client and a server. The client is usually embedded into your favorite emulator and the server is a stand-alone application that needs to be run on a machine directly wired to the Internet.

Current Client Version: 0.9 (04/14/2003) | Current Server Version: 0.86 (02/15/2002)

Current statistics:

43 online servers. 97 players.
