Our Custom Login Page Plugin Top Features

LoginPress comes with easy-to-use design tools that allow you to customize every detail of your WordPress login pages to match your branding – which is essential for professional-looking websites.

Pre-Designed Login Templates

With a dozen unique templates to choose from, you can start customizing your WordPress login pages right away with minimal effort - and no coding skills!

Save, Import & Export Settings

LoginPress lets you save your custom-designed login screen layouts and import the settings, which can be easily used on different websites. This makes it easy to build your own design library with countless design possibilities!

Your Logo on WordPress Login Screens

Replace the standard WordPress logo on the login page with your personalized logo to ensure brand identity, a key for business success.

Diverse Login Forms Styles

LoginPress lets you easily design like a pro and customize the actual login form to change its background, color,

width, shadow, padding, hover, and so much more.

Google reCAPTCHA

Protect your website from spam while allowing real people to pass through with ease by easily enabling Google reCaptcha on the login, registration and forget forms screens.

Customized Login Error Messages

Further create a memorable experience for your users with fully customized error messages that align with your brand's style and tone, whether it's serious or playful!
