WHAT'S TIEMU ?

TiEmu is a multi-platform emulator for TI89 / TI89 Titanium / TI92 / TI92+ / V200PLT hand-helds.

TiEmu does not emulate TI82, 83, ... hand-helds but [TiLem](#) does.

You want to know more ? Go to the [Features](#) section.

LEGAL TRADEMARKS

TiEmu has been developed independantly of Texas Instruments. We are not affiliated with TI. We didn't receive ANY help from TI.

Texas Instruments and TI are trademarks of Texas Instruments Incorporated. For more information: [here](#)

LINKS & SPONSORS

The TiEmu project is managed on [SourceForge](#). SourceForge gives us some facilities for developing software, managing releases, bugs, mailing lists, ..., as well as the web hosting.

Optimized for [Mozilla](#)
© 2002-2005 by roms

It use some [ticalc.org](#) facilities (archives, news and scoring) and TiEmu got the Program Of The Year (POTY) 2005 & 2007 [award](#) !.

This site is a member of the [Linux Programmer Group \(LPG\)](#) (LPG). The LPG aims to promote the development of TI's calculators related applications for Linux. There is a need and a lot of work to do in comparison with Windows.
