# Apartment Visitors Management System using PHP and MySQL

BY ANUJ KUMAR

SHARE

The apartment Visitor Management system is a web-based technology that will revolutionize the way your society manages visitors and provide visitor pass to them. The visitor Management system is more important to security guards or security society. This web application provides a way to effectively control records & track society visitor traffic.

## ✔ Apartment Visitors Management System Key Features

In AVMS we use PHP and Mysqli database. This is the project which keeps records of visitors who visited in the company.

AVMS has one module i.e admin.

1. **Dashboard:** In this sections, admin can briefly view how many visitors visited in a particular period.
2. **Visitors:** In this section, admin adds new visitors by filling their information in add visitors sections and also view and manage visitors records. Admin also put visitors out time in the manage records section.
3. **Search:** In this bar, admin can search a particular person by their name and phone number.
4. **Reports:** In this section admin can generate visitors reports between two dates.

Admin can also update his profile, change password

Download Apartment Visitor Management System and PPT in Rs. 99 / \$ 1.40

### 🔧 Technical Specifications

- **Frontend:** HTML, CSS, Bootstrap.Jquery
- **Backend:** PHP
- **Database:** MySQL
- **IDE:** VS Code / Sublime Text

×

Hello,  
Welcome to **PHPGurukul**.  
How can I help you?

● Online | Privacy policy

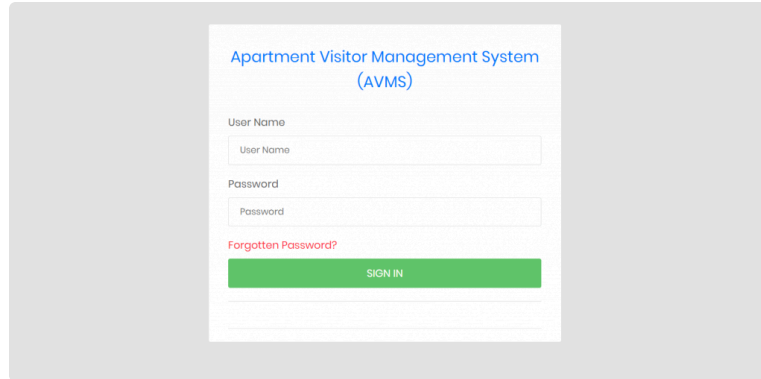

- **Software Required:** XAMPP / Wamp / Mamp/ Lamp (anyone)

## What's Included in the Package

- Complete Source Code
- MySQL Database File (.sql)
- Project Report (DOC/PDF)
- PPT Presentation
- Installation Guide

## Some Project Screenshots

### Anuj Kumar

Hi, I'm Anuj Kumar, a passionate web developer with expertise in PHP, Laravel, CodeIgniter, MySQL, and Bootstrap. I enjoy building clean, responsive, and scalable web applications that address real-world challenges. I love creating student-friendly projects, sharing practical coding tips, and helping developers—especially beginners—strengthen their skills. Through this website, my goal is to simplify complex concepts, offer ready-to-use project solutions, and support the developer community with useful, hands-on resources.
