More Features (dedicated-servers-VPS-shared-hosting-features.php)

You will get lot of features with phpTransformer.net

Instant Setup

As soon as you make a successful payment via PayPal, your web hosting and domain names will be activated immediately. No waiting time whatsoever.

Constant Backups

Your hosting account is backed up 4 times a day as standard, with our backup integration. We use dedicated backup servers, providing fast & easy individual file rollback abilities.

GIT/SVN Support

Web Developers love using version control systems. All of our hosting accounts can use GIT & SVN command line tools on our servers. Simply request SSH access to get started.

280+ Install Scripts

All our hosting accounts allow you to install popular software such as phpTranformer (<http://phpTranformer.com>) , Wordpress, Drupal, Joolma and Magento in one easy step. Upgrading your software is just as easy!

cPanel Included

All hosting accounts come with the latest version of cPanel. This makes life easy for you to do routine tasks such as setting up email addresses and managing MySQL databases.

Latest PHP & MySQL

Our network runs the latest stable and secure versions of PHP & MySQL. We also implement strict security and firewall rules protecting your website from unwanted visitors 24/7.
