

## Plugin Directory

### Changeset 3438067

**Timestamp:** 01/12/2026 06:31:28 PM (3 months ago)

**Author:** kingaddons

**Message:** King Addons for Elementor version 51.1.51 - January 12, 2026

- **New:** WooCommerce Builder extension – Build custom WooCommerce pages with Elementor. Includes 10 new widgets with full styling controls for products, cart, checkout, my account, product page, order tracking, product categories, and shop messages.
- **New:** Theme Builder extension – Create custom theme templates (Single, Archive, Search, 404 and more) with display conditions.
- **New:** Custom Cursor extension – Create premium cursor styles with hover states, click ripple, and targeting controls.
- **New:** 3D Holographic Card widget demo added.
- **New:** Animated Gradient & Mesh Background widget demo added.
- **New:** WC Products widget – Display WooCommerce products with query options and full Elementor styling controls.
- **New:** WC Cart widget – Full WooCommerce cart page with customizable styling for table, buttons, and totals.
- **New:** WC Checkout widget – WooCommerce checkout page with complete style customization for forms, order review, and payment.
- **New:** WC My Account widget – Customer account dashboard with navigation, forms, and button styling.
- **New:** WC Product Page widget – Single product page with gallery, price, tabs, and button styling.
- **New:** WC Order Tracking widget – Order tracking form with customizable fields and button styling.
- **New:** WC Product Category widget – Products from a specific category with full styling controls.
- **New:** WC Product Categories widget – Display product categories grid with image, title, and count styling.
- **New:** WC Add To Cart Button widget – Standalone add to cart button for any product with price and button styling.
- **New:** WC Shop Messages widget – WooCommerce notification messages with success, error, and info styling.
- **Improved:** Security enhancements across the plugin.
