Missing Authentication for Critical Function

Affecting [django-mdeditor](#) package, versions [0,]

INTRODUCED: 8 JAN 2025 [CVE-2025-13030](#) [CWE-306](#) FIRST ADDED BY SNYK

How to fix?

A fix was pushed into the `master` branch but not yet published.

Overview

[django-mdeditor](#) is an A simple Django app to edit markdown text.

Affected versions of this package are vulnerable to Missing Authentication for Critical Function in the image upload endpoint. An attacker can upload malicious files and achieve arbitrary code execution since this endpoint lacks authentication protection and proper sanitisation of file names.
