We ❤️ Our Users

... and they have some pretty nice things to say about us, too! Here are just a few. [Click here](#) to see more about what people think about Snipe-IT.

“Snipe-IT is a huge improvement from anyone attempting (and likely failing) to do any type of significant asset tracking through spreadsheets but without much (or any) budget for a commercial option.”

“After an extensive search we were glad to come across Snipe IT. And since then, we've not looked back! After some month running it on site, we switch to the hosted solution. This product has made managing our inventory a breeze. It's open-source, feature-packed, the pricing for the hosted solution is significantly better than similar products and support from the team is excellent. Highly recommended!”
