## We ❤️ Our Users

... and they have some pretty nice things to say about us, too! Here are just a few. [Click here](#) to see more about what people think about Snipe-IT.

“It works flawlessly for us. I really dig your approach to development, and you should know your product is making inventory really easy for us here.”

“What is better than free software? FREE SOFTWARE THAT WORKS GREAT! Been in IT professional for over 10+ years and Snipe-IT is the best Asset Tracking software I ever used and managed. No more moans and groans about excel sheets, missing changelogs, bad UI, or learning curves. All you need is Lamp Stack and a little bit of Linux Kung Fu.”

Galis Wong

“Being able to have so many sortable data fields for each item is incredible! Almost limitless possibilities of how to manage and track inventory. Management of consumable stock is also incredibly easy thanks to its limits and notifications.”
