# Submit #782941: <https://github.com/provectus/kafka-ui> 0.7.2 Code Injection

**Title** <https://github.com/provectus/kafka-ui> 0.7.2 Code Injection

**Description** Unauthenticated RCE. The endpoint `PUT /api/smartfilters/testexecutions` executes an arbitrary Groovy script supplied by the user and returns its result. It does not call `validateAccess()` (no RBAC/auth check) and does not call `checkIfFilteringGroovyEnabled()` (the flag gate that guards the equivalent message-filter endpoint).
